First and foremost there is no guarantee that you are gonna always win, expect to lose. We are on our 5th winning streak now, tho before we achieve that we had a few hiccups. The team gave us quality picks that will ensure that you will have the best winning percentage.

Overall this service is LEGIT and will make you earn a decent amount of greens, just don't be greedy and bet it all in one go.

These are my latest slips from their picks :

Capital : 5mBTC

Profit: 5.72mBTC

(Feb 9, 2021 09:05 PM)vibes Wrote: [\[CITE\]](#) As my two week vouch copy is coming to an end soon, I am going to leave my vouch now. In my two weeks of being in Apex Sports Betting, we have had (in parlay bets) 6 wins, and 3 losses. Now, that is actually 23 individual games, with 20 wins and only 3 losses. We are currently on a 5 Parlay win streak going strong! I would not be hesitant to recommend this service to anybody. I do plan to renew my membership once my vouch copy has officially ended, and I plan on using some of my profits from the service. As long as you have a nice balance to play with, and use Risk Management (which the Discord is there to help you on that part) you will be fine. Bet smart, not dumb! There is absolutely no way you will not come out with nice profits if you follow simple advice from the staff. I have enjoyed my time with Apex, and another thing that I find unique, this isn't a group if you want ten bets a day. We have maybe a few Parlay bets a week, you see other services providing countless bets a day, but that's also why they don't have the win percentage that Apex does have. My first day in Apex, the main analyst (tipper) said a quote that I have always went by, "It's about quality not quantity". and I think Apex's win percentage speaks for itself when that saying is brought up. Apex focuses on quality bets, not quantity. Thank you again for the vouch copy @OP. It's been fun, and I can't wait to see what the future brings!

(Feb 11, 2021 02:19 PM)Bluffer Wrote: [\[CITE\]](#) I received a two week trial in this server and here's my review.

It is great to see a service which prioritizes quality of bets over quantity. I've seen a few times over the last two weeks where the bet predictor (who's extremely good at his job) will pass on betting on

games because he's not certain. He will do a lot of research before games and make sure he's confident in his picks, that's what I like about this service. They aren't going to give you bad picks because they only pick games that they are sure on.

Another thing I really like about this server is they have a guide for newbies. In my case I hadn't really bet on sports before so I had a few questions, the bet predictor was happy to help me and [Golden Complex](#) has also always been able to answer my questions.

Profitability has been steady, I kept my bets low because I didn't know what to expect but I made enough to where I was confident in buying a month's worth after my trial ended. You will absolutely make money buying into this betting service over any others because they prioritize quality.

Cheers.

(Feb 13, 2021 05:21 AM)reefli Wrote: [\[CITE\]](#) I cannot recommend this service enough!

Accurate tips and great customer support. Prioritizes quality of bets over quantity that's why the win rate is above 80% unlike many other providers I tried and was at a loss most of the time.

Looking forward for more bets \$\$\$

I'm a contracted member from the old thread, here is my stats after 30 days.

Total bets: 33
Won: 24
Lost: 9
Bookie: fortunejack
Starting capital: \$150
Current balance: \$357

Apex is the best sports betting service I've dealt with so far. Vouched.

Im member since 2 weeks now, im happy with it so far !
I do recommend that service !

Bluffer - April 16, 2021, 2:08 pm

I've been in this sport betting group since January. It is nothing short of the best that you will find on HF. I'll wait for my contract to be accepted and Shalom can post my previous vouch and earnings.

Right now we are on 3 wins in a row and 6 of the last 7 have been wins. The esports picker is also very good and went on something like 11 or 12 games in a row as wins.

This is tremendous value for what you pay. I started with a vouch copy in January and have since bought two months worth and now recently bought another 3 month extension.

NRouted - April 17, 2021, 2:57 am

Easily profited over £500 in my first month here. Would recommend highly.

Any chance of a vouch? I regularly bet and would like to test this service out. Unfortunately as I'm Australian the fee is quite hefty with conversion rates.

Cheers

now. I couldn't be happier with a betting group. This is as good as you will ever see on Hackforums. Professionally operated, the picks are made by people who do extensive research as I mentioned in my previous review and in the last week I've had some nice profits from smallish bets.

Looking forward to being in this betting group for a long time to come.

Hi, thanks for your interest. However, there are no more vouch copies left. I already gave them out and received reputable vouches during our initial launch. However, since I've made a new thread there are still some discounted copies if you would like to join still.

Hey, so sorry about the long delay have been quite busy recently. Will check up after this post.

I'll post a quick little update below, excuse my slow responses everything should be back to normal now.

We recently just finished up a 5+ Win-Streak.

E-Sports is starting back up for the MSI series. Be sure to get in for those tips!

(Apr 25, 2021 06:41 PM)Digital Wrote: [\[CITE\]](#) Been with these guys, I can assure you that their picks are accurate and high quality, but betting includes some risks so proper bankroll management is part of your success. So far I witnessed a 9 win streak with APEX. WOW!

We live on win-streaks here....

Many people have been requesting to see a spreadsheet of our results so far. Here is our current calendar month so far... (Still on-going)

For the sake of transparency. The spreadsheet below has not been updated with our recent losses we had (accurate to 02.05.2021). Our Analyst manages all the spreadsheets and hasn't been able to do so recently.

Just a few things I want to reiterate.

Following proper bankroll management. Profits will always come. Having bad periods will only slows the process down.

We have written guides, case studies + more to help you with bankroll management. I strongly recommend reading through these channels upon joining and understand the strategy before following any of our tips.

Don't get greedy. Follow our strategy and stick to it. Anything can happen when it comes to betting.

For those who want to see the numbers...

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
