Exalted Crew DarkRP Server

I've recently been working on a project in my spare time, putting together a simple, good old DarkRP server on Garry's Mod. Despite the game not being anywhere near as popular anymore, I figured it'd be an enjoyable sense of nostalgia.

Decided naming it after Exalted seemed fitting. As of right now the server's very basic but hoping to update it overtime. I'll continue to add updates to this thread as I work on it.

Not sure how long this will last, only time will tell, for now if you'd like to check it out you can do so here : 23.235.255.218:27025

Haha well if it makes you feel any better I've never been a fan of the overly serious roleplay involved, in my opinion it's all the about fun. Growing up running a darkrp server we just remained very laidback and let people have fun it was a blast.

Glad to hear it though, let me know what you think! :)
