He B TeMy - April 19, 2021, 2:41 pm

Just found an old wallet of dodge with around 14k doges...

I could provide screenshots but i guess that wouldn't be proof enough for y'all, wish me luck my friends

HACKED - April 19, 2021, 2:44 pm

That is dope. Was also searching for Dogecoins but didn't find any significant amounts.

I found 100 Dogecoins which were from an HF giveaway some years ago BTW.

He B TeMy - April 19, 2021, 2:46 pm

Most of mine were from giveaways early 2014/15... then i stopped, i randomly found an old backup of sorts and this was in it, i'm actually excited wtf

you should be excited thats a decent chunk of change right now at its current market price.. feel free to share the love OP! haha

He B TeMy - April 19, 2021, 2:49 pm

I actually found an old btc wallet too with around 1.5k\$ current market, i'm not even kidding, i don't think i'll sleep well tonight XD

I just need to test the passphrase for the btc wallet, the doge wallet i tried it like 70 times and got one to work.

A Nobody - April 19, 2021, 3:15 pm

Over \$5,000 if you sell it now. Amazing thing to casually stumble across!

He B TeMy - April 20, 2021, 10:37 am

Where is a good place to sell it ATM? Been out of the game for too long, i heard coinbase is bad now, binance good ? Kraken ?

Aeowulf - April 20, 2021, 10:38 am

Good stuff. Been trying to recover mine with 2k in but I don't think that's going to happen before it becomes worthless again.

MarvinMalware - April 20, 2021, 10:44 am

Damn good for you OP, that's a solid come up. I had around 3k and was excited so I can't imagine 14k. At what price did you buy in at?

I didn't buy it actually, it was from early 2014/2015 giveaways and site prizes on the early days of the coin.

Now i'm looking for a place to sell it, got any ideas?

Oh shit that's even better, I had bought in about a year ago as a joke when I was drunk lol. Only good decision I've ever made while drunk.

Also, I actually just cashed out a significant amount of it through Binance, fees weren't too crazy.

Silkroad - April 20, 2021, 10:49 am

I bought 2000 dogecoins for \$100 a couple months ago when it was a \$0.05 and didn't really see the hype/value in it so I sold them when I made 2x my cash.

I should've held them but oh well.

Now it's at like \$0.35 and I'm thinking about buying some again but I don't wanna pay \$800 for the same amount lol

Prettykitty - April 20, 2021, 11:27 am

I think I have an old wallet with some, lol. It takes forever to sync not sure why.

Sent you PM with info about why.

If i convert it into Fiat currency on Binance does it change value if it stays there?

Snowwy - April 21, 2021, 7:35 pm

Lucky you OP! What are you going to do with them?!

Yanix - April 21, 2021, 8:52 pm

Right now just waiting to see if they go to 0.30€ so i can dump some of them and keep the rest, i don't believe it will grow that much... and 2k€~ money is good profit.

Lozemlpsum - April 23, 2021, 9:59 am

Congratulations my man!

imthegreat3131 - May 1, 2021, 5:57 am

He B TeMy - May 1, 2021, 7:03 am

Just withdrew some of it... like couple hundred € to get a feel how binance works aswell since i've been out of the game for so long... (bashing my head why did i stop at all)

Anyway, I hear day 8 Elon Musk is on SNL, gonna wait till then to see if a new "bubble" comes up, always with 10 alerts on it ;)

Gramatik - May 1, 2021, 1:36 pm

Doge coin is a crypto very weird for me, but you can make a lot with it

I N C R E D I B L E - May 1, 2021, 1:44 pm

damn.. I just my wallet has 60k doge.

Spoiler ([Click to View](#)) dafaq.. didn't I myself transfer them after purchasing from Binance a month ago?

He B TeMy - May 1, 2021, 3:56 pm

0.32 again.... sold more of it at 0.31, it will prolly rise day 8 with SNL, but i still have more than half to sell.... XD

I'm a greedy motherfucker.

bk randy - May 1, 2021, 4:06 pm

I found 3 wallets on this computer and one for sure on my old one, but it has a virus so I'm gonna try to find a reset point and if I do then some of the accounts and files, source codes and ewhore packs may be worth somethin, let alone wallets from 2011.

I'm a greedy mommyfugger.

yeah wait til the 8th forsure man, doge isn't going anywhere for rn imo, but then again, the minute Elon Musk says to sell out or buy into something else it can be game over for Doge, but I don't think he'll bomb all his followers like that, could happen though.

TradeGods - May 3, 2021, 8:19 am

i just saw that my old btc address used from 2012 to 2016 has received 1.8mil in total :/
