Thread: [Pancake swap question](#)

PSGrowPaintball - April 21, 2021, 7:59 am

I got some bnb in wallet to test swapping. I'm having trouble for some reason.

I tried directly from website to connect wallet and it said provider not found.

I go to trust wallet and go to exchange, I have bnb in trust wallet. The dapps section in pancake swap I'm in the exchange, it's not recognizing any bnb.

What do I have to do, I'm assuming it's an easy thing I'm overlookin

Swap from BNB to BNB Smart Chain

PSGrowPaintball - April 21, 2021, 8:05 am

(Apr 21, 2021 08:02 AM)ingenious Wrote: [\[CITE\]](#) Swap from BNB to BNB Smart Chain Okay. And then it will show up in dapps through pancake swap?

Bnb fees seem high for sending, then there's the bnb swap to smart change fee too.

Then there's like 8%-20% for moons coins....

Anyone know the percentages for these fees?

tonis - April 30, 2021, 12:33 pm

You need BNB Smart Chain to swap.

Make sure you have enough BNB Smart Chain to cover the fees.

Maskin - April 30, 2021, 1:40 pm

Maybe your BNB isn't on the smart chain? Not sure how trust wallet works as I only used MM and the BSC chrome wallet.
