Thread: [Domain name and website that gets 1000 visitors a month](#)

The Pact - April 22, 2021, 4:25 am

How much would you pay for a domain name and website that gets 1000 visitors a month?

I thought there used to be a valuation section on this board but I couldn't find it sorry. Hope it's OK to make this thread. I'm not selling I'm considering buying but don't know how much to offer and they didn't give me an indication. They have twitter account and other stuff associated with the name.

It depends on how much they make from ads. Or how much you can make from adds which 1,000 views or visits daily isn't much. I prob pay like \$40 for it.
