Send me a pm to find out more, won't discuss it much on here. These are physical items with free worldwide shipping. Willing to also sell the Shopify store that has had \$4.2k of sales in the past 4 days for the item, price is negotiable and can be sold via a reputable HF MM.

Could you tell me.. Is this related to Pokemon Cards?

If so, and you want to keep it classified, I'll remove my post.

Yes, it is. But that's fine, you don't need to remove it, it doesn't effect the thread.
