Looks pretty clean. Xenforo eh?

Ultras - April 24, 2021, 12:13 pm

I really like it. The colours and design is very easy on the eyes.

Thanks, I appreciate it. And yep, for Xenforo

Thanks! I was especially happy with how the colour scheme turned out in this project.

Looks really clean, love this style. Good job OP!

The clean and colourful design is amazing, yet I would add the feature (if not done already) to hover / swipe (from left to right) over the smaller side-menu bar to see what each icon is for.

The floating design really catches my eye. Well done!

Thanks! Also that's a great idea, I appreciate it.

It looks great. I love that it doesn't like like every other forum out there, but it isn't too much of a

change to have a learning curve to figure out. Also love the stats presentation.

Nice work.

Love those icons [ShadyEntry](#) are they custom-designed?

Niku - April 27, 2021, 8:48 am

It looks really cool. How long did making it take you?

They're actually a premium pack icon pack I got commercially licensed from FlatIcon, I just changed the colouring.
