Thread: [Long time since ewhoring, any tips?](#)

O.P. - April 24, 2021, 3:27 pm

Hey everyone, it's been a few years since I was on HF and Ewhoring, I'm wondering if its still profitable?

I used to ewhore on Instagram using Massplanner. Now massplanner is gone should I look into some other alternatives

for instagram account handling?

Should I redirect the traffic somewhere like snapchat? I still got 3 accounts that aren't banned on IG, average 5k followers.

Should I reconstruct those into different "packs" ? Not sure I could find the original specific collections.

What payment methods are good atm? I used to only accept AGC. Also I'm European.

Sorry for the many questions ?

?

Me and my girl do it but on onlyfans pretty good, we dont do much and generate around 1k monthly currently also she was just advertising via IG account with 20k followers.
