Thread: [Not getting a response \(httpwebrequest\)](#)

HardStoN - April 29, 2021, 11:04 am

So im sending a get request to a specific url and im not getting a response, monitored the traffic with fiddler and my request is the same as in the web browser, cookies and headers wise. What am i doing wrong?

Thanks for the help.

gigajew - April 29, 2021, 6:09 pm

The website in question could have anti-bot software set up such as cloudflare

SecuroServ - April 29, 2021, 6:11 pm

Could you provide the code that isn't working?

And what do you mean not getting a response? Empty string? Or an exception? Or?

Scapula™ - April 30, 2021, 12:18 am

Yes for cloudflare you can find a lot of projects on github for bypass it. Some websites need just a valid user-agent.

dinozzzz - April 30, 2021, 1:18 pm

Code Latest Chrome user-agents

Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko)

Chrome/90.0.4430.93 Safari/537.36

Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko)

Chrome/90.0.4430.93 Safari/537.36

Mozilla/5.0 (Windows NT 10.0) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/90.0.4430.93 Safari/537.36

Set it like this:

Code myHttpRequest.UserAgent="Mozilla/5.0 (Windows NT 10.0; Win64; x64; rv:88.0) Gecko/20100101 Firefox/88.0";
