Thread: [AutoBuy Button \(Contract template\) not working anymore!](#)

LoremIpsum - May 2, 2021, 6:57 am

Removed content - problem N/A.

Criptex - May 2, 2021, 6:59 am

You have to decode your URL sir.

(May 2, 2021 06:59 AM)Criptex Wrote: [\[CITE\]](#) You have to decode your URL sir.

The URL is the same URL as the one in my template.

How do I decode a button that is created automatically after setting up the Contract? Any help is appreciated.

Criptex - May 2, 2021, 7:06 am

Something to do about how the code handle everything. Honestly don't know much more about it. Good luck finding a fix.

Michael - May 2, 2021, 7:06 am

Can you share the full url of the second GIF here?

spiral - May 2, 2021, 7:23 am

Only happens when you try to click your own autobuy button. Works fine for buyers.

(May 2, 2021 07:23 AM)spiral Wrote: [\[CITE\]](#) Only happens when you try to click your own autobuy button. Works fine for buyers.The reason I wrote this thread is because one of my buyers said the button wasn't working for the E-Whore pack. I sent him the Sellix link (same as Contract) which works fine. Why would I want to 'buy it' myself?

Long story short; it doesn't work for buyers, else I wouldn't create this thread.

Click that link to get redirected to the Customer who couldn't use the button.

Just started a contract with you to check. Your link works fine. Cancel our contract.
Also the post you linked is a huge marketplace violation ? ? ? ?

Understood. Removing content now.

I assume the member in question made a mistake..
