Thread: [600 USD /500 EUR Gaming PC Build needed](#)

StA Wiesbaden - May 2, 2021, 8:22 am

Hi there!

My budget is \$600 (500 EUR). What would be the best build to get the most performance out of that budget?

Would only run games like CS: GO, Fortnite etc.

PS: 250 GB SSD would be enough.

Thanks in advance!
