Linkinpork's Business Email / Company Stalker Service

Need to send advertisements directed at a company? Have a marketing idea but no company to send it to? This is the service you'll need!

Using paid and open-source tools, I'll scour the surface web for the email addresses of the company that you're looking for. This is 100% Legal as there will be no server infiltration involved. All sources are --out there--, and will include international search engines, social media websites, and even pastes! You need only point me (and my tools) to the company, and I'll do the rest ?

Pricing: \$2 USD (BTC or ETH accepted) for increments of 100 email addresses per domain. Company must actually have independent email addresses, and should be present in the surface web. In the event that I get no results, the search will be for free!

Vouch copies will be given to 3 trusted members.

Cheers!

Hi,

Sadly no, I can only provide a list of email addresses per domain, esp those present in the surface web. Nothing else is included ie phone numbers or addresses.

Cheers!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
