START IT WITH ADMIN PERMISSIONS!

Download:

Code Download: <https://gofile.io/d/lkCgxb>

Virustotal said its undetected to defender, but defender is removing this file, so i recommend to disable defender first.

MiniTutorial:

Open as admin bot, then insert your tiktok video url, then insert path to chromedriver.exe (included in downloaded rar)

Bot will send 1000 views automatically once per 10 minutes. Just leave computer for night, and insert captcha once per 4-5 hours:)

Errors:

Failed to execute script:

- start as admin, or disable defender

Any other error:

- Try to install latest version of python, and then in cmd write: pip install pyfiglet and pip install selenium
