Purchased a server from him, he said it would take around 2-3 hours to set-up.
- 3 Hours passed I asked him and he just said it's "processing", so I waited.
- As time went on I had less responses until he is just completely started ignoring.
- He said he was installing the OS but no reply till this day.

OP is a scammer, unless I get a refund or my server.

I wouldn't purchase from him due to his shit support + you won't get your servers xd

He is a scammer. One look at his profile would have told you as much.

He also vacation banned himself for one week.

Looks like you're going to have to wait a bit longer now.

He said he came back in business, sent me a convo and added my discord - only issue is he just

blocked me.

He is going around scamming again.
