Hey guys I can get Google Play Credit for free. Got 150 GBP right now, can get more. What is worth buying?

Is there any way to cash out Google Play Store credit you know of? I can't really find many options for in app purchases.

Please let me know!

I had 300\$ once, there is a way to cash out by doing Buy4you services in phone games like Call of duty, TFT, PUBG mobile, but thats not allowed on HF.

I spent mine on CS:GO skins apps and gambled it all
