HOMODIN - May 10, 2021, 5:23 am

Looks nice, great job mate :)

There's only one thing that "bothers" me, the eye isn't in the middle of that "ring-thing" in the bottom...

Blob - May 10, 2021, 5:30 am

Did you trace it? In your timelapse video there is no construction of the anatomy or background, anyway the linework and shading is good. How are you finding the UGEE drawing tablet?

Lorem Ipsum - May 10, 2021, 5:32 am

The colouring is nice, the details are great.

I'd just make his right hand (facing him) a bit more distance from the upper arm.

If you perhaps make it bolder or just to stand out more, it would look perfect.

Btw, I love the details with the blue/yellow(gold) combination.

For the real jury, ask [Motusora vyactor](#) and [Changement](#) perhaps for some tips.

Three different artists with various styles.

yah that ring thing is a flare effect and is not intentionally to be there in the middle of the eye.. ???

the blue outline i made it from scratch will take it too long if i added the construction of the anatomy on the timelapse , background is all in the head ... the pentab seems great to work with though i haven't tried yet expensive pentab..???

thanks for the tips yah maybe it wil look nice if i do it that way.. haven't practice drawing for ages. aside from sketching digitally i also do tattooining and it helps a lot. using pentab and tattooining is like the same drawing in the air..???
