Unique features

When we started planning CasinoFriday, we knew that we would be eaten alive if we just launched another standard casino site. There are thousands of online casinos out there. We knew that we would have to come up with something new, something better, something stronger.

Being casino players ourselves, we know what's important when playing our favourite games online. It's pretty basic. It's not rocket science. CasinoFriday is not a revolution. We'll settle for changing the online casino sphere forever.

Immersive Gameplay

Playing online casino games is about the basics. The gameplay - when you find your favourite game, open it and play. That's it. What makes our Immersive Gameplay unique, is that you, the player, can filter through similar games, while you play!

Open your favourite game at CasinoFriday on desktop, and you'll see what we are talking about. Put on some auto-spins and find the tags under the game. Click on "Sticky Wilds" for instance, and filter through a myriad of slots that have the Sticky Wilds feature. We have over 2000 games in our casino, so whatever tickles your fancy, there are more games like it. Fancy some Bonus Buys like Extra Chilli? Want to play games with Cascading Symbols like Gonzo's Quest? How about some Cluster Pays games like Jammin' Jars? You got it in our Immersive Gameplay Stage - without missing a second of the action on the reels.

Search Anything

Navigating online casinos can be a pain with strangely hidden search bars providing limited function and speed. That's why your search bar at CasinoFriday ALWAYS is on your top right. Afterall, you know what you like. It should be easy to find the game that gives you #thatfeeling.

Our Search Bar is not only conveniently placed. It's faster. Better. Stronger. Your search options is not limited to game titles. Search anything. Well, anything CasinoFriday. Do you have a favourite game provider? Search. Do you only want to see Grid Games? Search. Want to filter games with a Free Spins Bonus Round? Search.

Search anything, anywhere.

This website has everything you'd ever need on a casino website, AND MORE.

Please post below and I will try my best to PM you the link!
