Thread: [Tesla no longer accepting BTC as payment for vehicles purchases.](#)

SA7770SHI - May 12, 2021, 3:14 pm

Elon Musk just tweeted this, get ready for a bigger dip, ill buy the dip.

Forensic - May 12, 2021, 3:19 pm

Oh this is just GREAT. Elon honestly just seems like he's fucking with the crypto market to see what leverage he has sometimes. Moreso than Tesla just the angle that bitcoin is hurting the planet could seriously damage the price in my opinion. We shall see.

BaldCunt - May 12, 2021, 3:21 pm

I bet my money he's trying to pull down the market so he can purchase more at a lower price -_-.
W just got invaded.

ShockStatik - May 12, 2021, 3:22 pm

This guy is just toying with the market at this point. It's actually crazy to see how much influence he has.

shreder - May 12, 2021, 3:28 pm

Ethereum 2.0 here we come baby haha, flipping INCOMING

zerklou - May 12, 2021, 3:29 pm

he can announces now they re accepting shiba

Koyote - May 12, 2021, 3:43 pm

I'm quite honestly beginning to really resent Elon and the way that he tweets. For someone with so much influence to post something like that, without sources or references, it's just market manipulation. And what a shitty way to present this relatively big announcement, on some stupid notepad type app?! Ridiculous.

Ivex - May 12, 2021, 3:46 pm

And in a few weeks/months time comes Elon's latest venture: green Bitcoin mining.

ingenious - May 12, 2021, 3:47 pm

@FocusBroken

Would love to see your response :p

Bru6 - May 12, 2021, 3:48 pm

The real power to play with the world economy (:

HERMES - May 12, 2021, 3:50 pm

Now, we look for what crypto will meet his standards. And stock the fuck up.

What cryptos do you guys have in mind?

Any crypto that uses <1% of bitcoin's energy/transaction could be the next pump.

Wa I don't know the one called Ethereum I don't know but maybe Ethereum? ETH 2.0? Proof-Of-Stake? ?

Marvelous - May 12, 2021, 4:10 pm

Flipping is going to happen soon.

Evil Bob - May 12, 2021, 4:24 pm

Ayy my Nano is mooning. Too bad I sold 20% of my position yesterday for some Radix.

A Nobody - May 12, 2021, 4:25 pm

God damn it Elon. Well, guess I just hold my BTC like I was going to do anyways.

SIM-810273 - May 12, 2021, 4:37 pm

I think this confirms Omni = Elon

The week Omni tells us BTC will crash for this week at least - Elon comes out and says Tesla not accepting BTC anymore and it tanks \$6K as of this post.

GG omni, GG.

Yeah, hold up fair point... is OMNI actually Elon Musk?

UnoOne - May 12, 2021, 4:45 pm

This fool did not know this before he shilled bitcoin ?

He is losing his credibility and path to becoming another McCafe !

Don't be surprised if tomorrow he tweets " Doge is a meme coin ,it has no use or value ,don't invest ! "

Sixen+ - May 12, 2021, 5:16 pm

Honestly this is such a joke.

ep1capple - May 12, 2021, 5:23 pm

how are you gonna create a tweet whether to accept dogecoin for tesla cars yesterday and then the next day you pull out bitcoin payments. Fucking bipolar.

cokecaine - May 12, 2021, 5:38 pm

Nice. Stops Bitcoin as a payment method for Teslas and accepts Doge for SpaceX. Something tells me hes going to buy the dip and try to pump Doge again.

Maskin - May 12, 2021, 6:34 pm

I don't know what to say. I have always been a fan of Elon Musk with SpaceX and Tesla but what he's been doing with the crypto market lately is just confusing to me.

I'm also hearing his twitter could have been hacked, but we will see.

?Ñåg?! - May 12, 2021, 6:35 pm

this is just straight up market manipulation it's going to make governments want to regulate it

Voxi - May 12, 2021, 6:47 pm

I sometimes wish people like Elon would stay out of crypto, it's all fun & games when he tweeted once or twice about doge but now this is going to make the government want to regulate crypto.

V?rt - May 12, 2021, 6:48 pm

I just read a reddit thread that is all about Elon being the worst thing that happened to Crypto, and I just think that's right. I admire Elon for how genius he is with Tesla, SpaceX, and his other business ventures, but he's kind of an a scumbag.

_daniel - May 12, 2021, 6:58 pm

Perma-bulls will twist this to be bullish.

The bottom line is: Tesla adoption is what catapulted 'enterprise adoption' and BTC over \$40k USD. Not even 6 months later, we see them sell a portion of their holdings and stop accepting payments.

If he comes up and say that my twitter got hacked, I guess many people would leave twitter!

Also, it would be such a stupid thing to do on part of twitter network security team if they cannot defend a handful of global mega influencers.

On a lighter note, if I get my hands on his account, I would have written free teslas to those who invested in doge and are investors of Shiba.

Would love to see the world queue up outside the tesla stores next morning.

SIM-82498 - May 12, 2021, 7:00 pm

I step away for the day to go cycling, and I come back to utter doom. Never a dull day in Crypto land.

For some reason, I feel like he knows what he's doing. He just enjoys doing it lol. He can manipulate Crypto prices and make the world react from a single tweet.

Exactly. He doesn't seem to properly understand Bitcoin and PoW. I can't imagine he was getting over 5 people a day to buy a Tesla.. so we are talking about max 10 transactions a day.. Yet he felt it was necessary to put this statement out. He's doing more harm than good.

Bitcoin is a good thing for the world.

Yes. It's silly when people think he's doing this to dump the market and buy.. Imagine if he did that.. His reputation would drop so much that the losses would be FAR over what he could ever gain from this. He's not doing this for money, he's just being a dumb celeb who enjoys the attention / power of his tweets.

AmazingLicense - May 13, 2021, 2:19 pm

I don't know why people care about what he says.
He's playing and manipulating the market.

He knows some people care about what he says, so he can long/short the market before his speech. Also he can use a high leverage because he's certain that the market will move in his desired direction.

Musk and people on the top were late to the crypto game. This is their way of buying a lot of crypto and profit from it while trading with very high leverage.

These people (Musks, Gates, etc...) only care about themselves.
Some people choose them as role models, but they don't know who they really are and what are their plans..

Man, I swear.. Everyone on this forum thinks they're "woke" by claiming he's doing this for the money etc etc. Some people need to grow up, lol.

Changement - May 15, 2021, 9:37 am

Can it be that Tesla sold their holding position to show stronger Financial Q2 reports to make their stock stronger maybe?

Everybody is talking about Elon sold that and doing that but still he didn't bought btc with personal wealth it was bought as a company investment. It was just something i was thinking about, i Could be wrong but it Could be a scenario aswell. Tesla company buys and sell with huge profit and show a strong Q2 report, stocks goes up and the value goes up and shareholders get richer.
