Thread: [Did you bring your past group name to HF?](#)

Infamous was created in 2005. Old school halo 2 players is where infamous was formed.(days of standbys and simple modded consoles on the new maps) Also only clan in halo 2 to reach level 50. Delta has been the Infamous symbol for over 15 years. Curious if any other group has some history that didn't start on HF?

Neal met Mr. Robot in the 3rd grade and got his lunch money stolen from him. He spent the next 3 years gathering followers who also had their lunch money stolen from him (myself included). Eventually we moved our headquarters here and branded ourselves as Terminal. The group disbanded after Dredds mom found out we spent \$3,000 to get back at a bully.
