Thread: [\[Onlyfans - Buyer\] - Testimonials about allowed payment methods ?](#)

Hello

I am looking for clean testimonials (from you or your friends) about the credit cards REALLY allowed as buyer on Onlyfans (be able to get a card verified AND add funds). I already have 1 buyer account with my Visa card (3D secure) and I would like to create a 2nd buyer account with another card (3D secure) (since it's probably impossible to use my Visa card on my 2 accounts). (Reason: I help a friend with a 1st account and I want to help her with a 2nd account)

Onlyfans support says about cards :

- Accepted = Visa/MasterCard, Discover, Maestro/Debit cards, Some Prepaid Visa cards
- Not accepted = Prepaid cards, Gift cards, PayPal

Order a new physical Visa/MasterCard/Maestro card (with 3D secure) would be very long (requiring to contact another physical bank) so I am thinking about that "DISCOVER" card solution. Have you some good testimonials about that card please ?

My questions :

- Does Onlyfans allows the "verified" status for that "DISCOVER" card (implying to check the small dollar amount sent by Onlyfans on my bank statement) ?
- Does Onlyfans allows to add funds on my wallet using that card (it seems that specific point is the main problem) ?
- Do you know the "Prepaid Visa cards" that will work ?

Thank you for your serious testimonials and help.

Have a good day.

NB : I live outside of the USA.
