Thread: [\(FREE\) HOW TO GET 50%-75% OFF RUNESCAPE MEMBERSHIPS](#)

Dollaz - May 13, 2021, 1:13 pm

Hello,

I been seeing lots of people who copied my service selling RS memberships. Since I am no longer in business I'm gonna save you guys some money and give you the website where all these resellers purchase them from.

They also sell league of legends points for cheap and a bunch of other games.

Just search on google "Tribogames" they sell lots of different memberships for games and even Runescape gold at a discounted rate.

This "method" should be public but people hide it for some reason because they want to profit off of everybody.

If this isn't the Brazilian web-shop method I'll gladly take a look.

Nevermind, I see you posted the well known shop ?

Yup no problem :) one of the members that copied my service came into my runescape discord and advertising his membership selling service. Just wanna make sure everyone knows not to hand your money to resellers, just goto the source :)

Thanks

Bonds are not sold on Tribogames; either get a subscription redemption key or buy gold directly. League of Legends points are available on the site; whether they work in 'NA' (North America, I guess), I don't know.
