PROOFS

I've uploaded some proof screenshots for you. You can view all of them on an imgur link. I do not even hide my personal name. You can ask all the questions you have in mind.

[Video: <https://www.youtube.com/watch?v=hFDSoe9F3IE>]

I have decided to open a new Forex VIP signal group
My win rate and sniper entry rate on trades are very high.
My stop losses are too narrow.
I will be sharing all the trades I have entered in my VIP group.
Join me and get consistent profit.

Compared to business models such as CPA, ewhoring, dropshipping etc. where you can reach money indirectly;
You will be in the money with one click in Forex.

MY TRADE STYLE FOR THOSE WHO WONDER ;

- *I am Scalp Trader in Indices and Gold, and Intraday Trader in currency pairs.
- *I use volume profiles and futures data. In addition to these, I filter my entries with the help of 7 different indicators that I have developed.
- *I have a strategy of my own and I do not enter trades before the appearance of my strategy is formed.
- *I am not one of the signal providers looking for entries while chilling with their phone in hand. This is my job.

Forex is a seriously difficult area. Stay away from stupid asses with lamborghini on Instagram. They draw 2 lines and try to make chart analysis.

FAQs

QUESTION 1 : If you're making good money, why are you trying to make a signal group?
To give you the opportunity to earn quality money, as well as to generate additional income for

myself. It only takes me 5 seconds to send the trades I entered to the signal group. It is very difficult to find real traders in the Forex market with constant income.

QUESTION 2 : Why are you trying to marketing on blackhat forums? Why not use Instagram or any other social media platform?

I've been on blackhat forums since 2016. I learned everything from the forums. The extra income I earned enabled me to start a serious business. So I feel a commitment. Also, I don't keep secret my social media accounts. Soon I will be more active on social media.

QUESTION 3 : I don't know anything about Forex. Will you help in the beginning?

Sorry, I can't help. You need to know basic forex information.

QUESTION 4 : How much capital do I need to start Forex?

I recommend a minimum of \$800. The more money you have, the better.

I know you say you aren't offering vouch copies, but I figure I'd ask. I've been trading Forex a little over 3 months or so now. If you feel like handing out a vouch/review copy I'd be more than happy to post my results.

What time zone are you in (time majority of signals sent?)

I'm on GMT+3. After the London session starts, I start the signals and it continues until the Asian Session starts. I continue to examine the market until I see a nice entry.

That's unfortunate to hear for me as we have a 9 hour time difference. I'd probably miss out on a lot of trades.

What time do Forex trading hours start in your country? If I say globally, I am active from the moment the London session starts, until the New York stock market closes. (Almost 10 - 12 hours a day. Of course, sometimes I have work outside and I cannot examine the charts. But I can say that I did this job FULL time.)

I get it. I just had subscribed to a sports betting service but most picks came at 4am PST so that's a little early for me.
