How to Build Flash and Stun Grenades (At Home) eBook

I am selling a eBook called "How to Build Flash and Stun Grenades" by George Dmitrieff. 117 pages long and gets into actual tutorial on page 44. There is also good information on how flash and stun grenades work.

I will sell or \$10 but my price is flexible.

If you are interested pm or reply with a way to contact you

I am also selling 2 volumes of "[Chemistry and Technology of Explosives](#)" eBooks

Ah. School's coming up in a few weeks.

Time to "learn" something useful.

Larry - May 18, 2021, 4:40 pm

Are these ebooks for educational purposes only?

Yes. I bought one thinking I'd try it but didn't quite realize what I was buying so now i'm just reselling it. It'd be pretty cool if I could understand anything in it beyond the step by step instructions.
