A PRIVATE METHOD TO A SMALL FORTUNE THE REDDIT TRAP

2/2 vouch copies available. Post in the thread asking for a vouch copy if you are a high reputation member.

I want to keep this short and sweet so let me tell you the most important things about the book. If you have any other questions you can ask in the thread.

I am ONLY selling the method because I don't have time to utilize it anymore. I am running a business and have a job. If you are fine with trading your evening for \$200, this method IS for you.

The book not only contains the method itself, but a pack that I used the most +an easy way to get about 500 QUALITY pictures to use while using the method. Besides that there's a step-by-step handholding guide to all the software you will need and how to get it all set up for free.

The book also contains a behavior guide in case you get lost. It is very beginner friendly. Full 21 pages of valuable information.

The method is COMPLETELY unsaturated. I have seen maybe 2-3 people doing it IN 5 YEARS OF MAKING MONEY OFF OF IT. It is a HUGE MARKET that people are not taking advantage of because it requires deep understanding of the internet culture to discover.

What this method is?

An easy way for you to trade your time for good money.

A completely UNIQUE AND UNSATURATED way to make income with no competition.

A skill that you can hone to CONSISTANTLY MAKE BIG MONEY if you choose to do so.

A surefire way to make at least \$100-200 a night EASILY using half of your brain.

What this method isn't

An automated and complicated setup. All that you need to do is read the book and use the additional provided files to set yourself up in 10 minutes. You can make your first 50-100 bucks in literally 30 minutes. It is that easy.

BECAUSE I DO NOT WANT TO EVEN COME CLOSE TO SATURATING THE METHOD, I WILL ONLY BE SELLING 50 BOOKS.

Buy now and start making money!

Hi,

I would like to get a vouch copy.

Thanks

Waiting rep.

Is the method about selling? Do you have to have traffic and convince people to give money?
Is it whitehat or blackhat?
