Hi

Is it possible to earn big money on sites like #?

Not really, unless you are a master of a huge botnet, but in this case there are way better methods to make money, so you won't probably bother with ads or url shortenrs

Then what should I use?

I usually use linkvertise but their payouts aren't so good - any idea?

this question refers to what you should use with a botnet right?

if so,

miners

both xmr and eth miners
