Can you give us an estimate what the average pay is for these types of jobs?

Blockonome - May 19, 2021, 11:54 am

It really depends on what your skills are, what languages you speak, what kind of remote jobs are you looking for, what is your past experience and so forth. That is why it is tailored to your needs, when you sign up. So ask yourself, in your field, with your experience, what is the average pay?

EDIT^ However, it can be anything from £16.500 to £90.000 a year.

unusualdd - May 20, 2021, 10:25 pm

Dope idea.. So once I provide resume, you do all the job application submissions? I just provide you with links to apply or do I need to select from your portal? And do you have a example or sample list of what's/amount posted daily? I was looking for something like this recently.

Nobody will hand me a CV, you will give the CV directly to the employer.

Ok so, I am french and I have definitely good programming skills in Java with some nice projects on my github account. I have been programming for about 6 years. The problem is that these projects are quite narrow to a not very "commercial" subject (Video game plugins/addons).

Also I'm still in the middle of my studies so I don't have any diploma yet that could be of interest to companies.

Do you think that if I subscribe to your service there is a chance that I will find something in the programming field? (As long as it's not front-end web I'm pretty flexible ahah).

How long could this take and what kind of remote jobs are offered? My resume only includes physical labor work. Would love some remote work as well though. Any chance for me? I am experienced with computers for the most part. I am good with technical things and support.

Really depends on what you are looking for, can take anywhere from 3 days to 1 year.... So if you really are looking for a job and are committed to finding one, I would say you could use our service and have interviews from next week basically :)

Also, does not matter if you have not worked remote before, there are literally remote jobs for everyone out there :)

This is interesting, any reviews from buyers or do you offer like a trial day to someone, would be great if you gave someone a 24 hour trial into the group and review what's up.

Hey mate, I have a mostly up to date CV ready to go and have actively been looking for work around my area for a while now with no luck except for a couple of interviews, however, I would like to do remote work in my field if possible. I've sent you a friend request on discord so we can chat a little further.

As a follow up to this, still getting jobs posted almosted daily. Alot of them LinkedIn related so I am working on refining that a bit futher. Still happy so far, I need to put more work in updating my information. So far the jobs that I am seeing being posted have barely any applicants so that works in favour for the customer.

There are Customer Service jobs, however, there are about 6 main categories of jobs and then we also have a section for the more specific language jobs and "Other" jobs, that can be done remotely too. :)

magiciankai-o - November 16, 2021, 1:28 pm

INterested, how do I start? Is there MM? Do I work alongside with you via telegram or discord?

Ramayana - November 27, 2021, 3:40 pm

This actually looks awesome. I currently have a remote job as an Amazon account manager for a seller near to where I live. The beauty of the job is that you can literally take the work anywhere in the world. I'm looking to take on another remote job as my existing gig is only part time. I'll be signing up!

Xtrem3 - December 5, 2021, 11:05 am

Any finance related jobs? Also are these part-time or full-time?

armanmishra - December 5, 2021, 11:22 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
