Thread: [LoremIpsum \(uid: 4362613\) is threatening \(to dox\) me](#)

Lynx - May 20, 2021, 2:21 pm

A user on this forum, [LoremIpsum](#) , is threatening to dox and "love me up".

After posting on the thread [Perileos](#) made (<https://hackforums.net/showthread.php?tid=6154768>) he started threatening me for some reason (obviously empty threats, but still).

He also made (of which he thinks is) my age public;

(May 20, 2021 09:27 AM)LoremIpsum Wrote: [\[CITE\]](#) ... 17 years old and already acting like a big man. We'll talk soon.

Then he proceeds to tell [Perileos](#) he will be sucking dick in jail or when he is in "his hands" AND that he hopes authority finds him faster than he found me (meaning he doxed me?);

(May 20, 2021 09:27 AM)LoremIpsum Wrote: [\[CITE\]](#) [Perileos](#) "D*ck suck" ... You will s*ck enough dick when you're ass is finally in Jail.. or my hands..

I hope for you, without threats or harassing intentions, that authority finds you faster than I found Lynx.

Unfortunately, this is not where he stops. He figured it would be a good idea to continue the argument on our mutual discord server from our mutual group sociopaths since he can't contact me anywhere else because he blocked me everywhere.

This is how that went (I translated everything he said in dutch to english);

Spoiler ([Click to View](#))

"@lynx hoe is je dag vriendje?" -> How's your day buddy?

"Bijna 18 spannendddd" -> Almost 18, exiting!

"Zelig mannetje" -> Pathetic kiddo

"Jij weet wat ik bedoel!!!" -> You know what I mean!

"Moet ik het kopiëren en plakken voor je, kanker kind" -> Do I have to copy and paste it for you? cancerous child.

"Doe maar :*" -> Please do

"Ruig doen en ontkennen maar ballen tonen ho maar" -> Acting tough and denying, but showing you have a pair, none of that.

"Ik praat wel eens met je kijken of je dan nog stoer doet kkr hond" -> I'll talk to you someday. Lets

see if you're tough then cancerous dog.

I'm sure some dutch people can vouch for these translations.

I have absolutely no idea what he is talking about regarding me "denying" something.
My apologies to the members of sociopaths for (lorem) bringing this into the group.

Then he threatens to "love me up"... I think we can guess what this means in this context.

(May 20, 2021 09:45 AM)LoremIpsum Wrote: [\[CITE\]](#) Underestimate me kid...
Btw, you post at this thread and you still deny to be talking about me? You'll see.. trust me.

I'll love you up. I'll love your mother up and I'll love you like your last step dad did.
No threats, all love. Enjoy.
Which really is a very strange threat in combination with him making my alleged age (17) public which means I would be a minor.

I didn't publish this to bring more drama to HF. He just went a little too far threatening me and my family.

I personally don't care for such empty threats but I think warning the community about how he handles situations is the right thing to do.

Correct me if i'm wrong.

Weird behaviour, to say the least. Anger management therapy might be a good thing to consider.

Forensic - May 20, 2021, 2:27 pm

Not really sure how this is a marketplace discussion. Loren is erratic this is obvious. You are clearly not 17 so whatever info the person thinks they have they obviously don't. Just ignore it & move on with your day.

Laylo - May 20, 2021, 2:30 pm

What a cryptic last quote from our edgy friend. Something tells me there is too much free time upon him. Although, shouldn't this be something you would report to staff instead of making a thread?

bk randy - May 20, 2021, 2:33 pm

Handle it yourself man this #internetgangshit

I've kind of noticed this too, he's never messed with me but I've seen him starting arguments with random members at least 8 - 10 times in the last couple months.

It is kind of weird that he knows that you're a minor, and then continues to harass you and says he'll rape you. Not really sure why he would say that LOL

I made a thread to warn people on how [LoremIpsum](#) might treat them and how he operates. This includes potential business related deals.

If only it were that easy my friend.

I don't understand the beef either, one exposes the other, and he is not happy with the result. I've had only positive experience with both of you guys, please try to figure it out.

maybe it's normal for you that people want to rape you and your mom, but it's not normal for him ;)

Lorem is a sped suffering of aspergers... literally autistic weirdo...

It likely won't be resolved.

I don't like how he operates. I don't like how he handles things. And thats all me. I'll have to accept that, and I do.

This doesn't mean I won't ask him questions and challenge him from time to time to see what his view on things are.

When he starts to threaten people, that's where he crosses a line in my opinion.

I hope you understand that bud.

I totally do, my point was that I don't want to see closed members because of such drama. If in fact

this is unlikely to be resolved, put him on ignore and move on :) no point of continuing that

Well, he also doxed me apparently. I am pretty sure that's not allowed.

If the information is false, I believe a warn is deserved. If not staff should proceed accordingly

?There's no relation & everybody can see for themselves.

That post was weird as hell but that's straight up mental illness for you.

this drama is so idiotic, arguments stemmed from actual nothingness

except it wasnt from nothing. Lorem was called out for selling a public method and lashed out towards everyone who said exactly that. That should be 100% bannable or at least a warning. Lorems last warning JUST expired for bullying another member

Swip3r - May 20, 2021, 9:49 pm

call the guy a weirdo and move on, who cares about this retard

Cooldudex - May 20, 2021, 9:52 pm

Doesn't everyone already know by now this Lorem Ipsum guy is ill? Lmao

montague - May 20, 2021, 10:04 pm

this thread is an absolute shitfest. OP got doxed/threatened with a dox, as well as some vile threats and u guys are like "haha lol yea the other dude sure is wacko! hope u guys can resolve this". Pretty sure this is something that staff should be looking at.
