Thread: [Selling method that made me almost 20K last year - COMPLETELY automated.](#)

I tried this method 3 different times and it worked every time.
It is 100% automated once you set it up.

You need some basic coding skills to set it up and about \$50 - \$100 dollars to get the website up and running.

It's a website you will be selling access to. If you don't code you can pay someone else to do it for you. I don't think it will be expensive to set up.

I will NOT be helping with the set up.

This is completely legal and whitehat.

What I'm offering:

There's no ebook. I will explain to you step by step exactly what I did and how I did it and I will tell you exactly what you need to do to replicate it.

I will offer exactly one week support where I will be answering any question you have.

How much it costs?

\$1K in crypto. I will only be selling this to one person.

I'm not giving vouch copies, don't ask for it.

I'm not offering refunds.

Still selling this to one person.

Wanted to ask for a vouch copy, but you was very clear. This isn't about dropshipping right? Good luck with the sale. ;)

I have a question regarding these contradicting statements.

What do you exclude from your "step by step" guidance, that isn't part of "helping with the set up"?

This is a genuine question. Setup of a method is usually the 'hard' part (step by step required), so I'm wondering what you will not be helping with, while explaining the method step by step. Let me know by Post or PM.

no, whitehat and legal.

I would rather like to know how much it made you this year.

A porn site is legal and whitehat, what could it possibly be. Who buys access to sites that aren't porn.

siur - July 22, 2021, 10:57 am

I'll stop responding to the post.

If you're serious and interested DM me. I'm not giving out any more information and I'm tired of timewasters.

Like I said, it's whitehat, legal and has nothing to do with porn.
