Hi, what's is the minimum balance required? And do you have any verified proof of your gains?

LSD - May 24, 2021, 3:17 pm

I recommend you put this service on the MLQ5 market place and allow users to copy trade for the price you're charging. It will be much easier for all parties involved.

unless it already is, in which Case I'd be interested if you can let me know minimum starting balance and some backtest proofs

Minimum balance is £1000 but with our broker it can be £650 and they can top it. It's so easy to trick myFxbook results even verified, feel free to join our [telegram group](#) to speak to our users who will share real results and experiences.

You must start a HF contract before starting your subscription for your safety and to meet forum regulations.

unless it already is, in which Case I'd be interested if you can let me know minimum starting balance and some backtest proofsWe aren't a fan of MQL5 as we like to be able to offer 120% customer service and we aren't able to do that through MQL5. We do have a VPS that our members can sign up for and also a group that discusses how to get the best out of the EA.

We have back tests, that show what happens if you leave the EA running all of the time, and it makes 160% over the year, even 99.9% back tests can not prove exactly how the EA would of behaved. This is why we give a free 14 days along with an open chat telegram with customers who have been using it for over 3 months, so can give real results and feedback from people who are actually using it.

Imalive625 - May 25, 2021, 3:20 pm

Would like to see some proof of profits

Fresco - May 25, 2021, 4:50 pm

Hi,

Have some previous backtest from bots?
Since when they are fully running and working?

Saw you have pair and gold bot.
Both have same performance? Whats the main difference? Risk, profits, etc.

Thanks

ThanksWe have back tests, that show what happens if you leave the EA running all of the time, and it makes 160% over the year, even 99.9% back tests can not prove exactly how the EA would have behaved. For this reason, we give a free 14 days along with an open chat telegram with customers who have been using it for over 3 months, so can give real results and feedback from people who are actually using it.

We have been using the currency bot since the start of November.

The gold bot is more complicated than the currency, but we've only been testing this version for 2 months on a live account. The gold bot is very consistent at £250 per month and deals with the high volatility very well. The currency makes anywhere from £150 to £225 per month.

~HF~ - June 8, 2021, 7:14 am

Do you have a myfxbook track record of an account running the EA over the past few months?

Stanley - July 12, 2021, 9:27 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page

and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
