Thread: [WAFNUKE -->> The Best Tool To Bypass Strong WAF .. RUN with sqlmap](#)

avocatoo - May 24, 2021, 7:12 pm

hello guys ,..

WAFNUKE

its python tool to bypass any WAF by manually and can catch the run tamper in sqlmap

- 1- can bypass comments (union select - order by - from - informationschema - database() - version() - tables - limit - and more comments)
- 2 - can bypass with priv8 dois
- 3 - can bypass sqlmap tamper and catch tempers can run in requists
- 4 - can bypass xss

screens :

python version :
run with python 3

support :
WINDOWS XP, 7, 8, 10
kali linux
termux
cmdr
pentestbox
and any platform

the version 2 will update by avocado and BlackRose-GHT ???
Features :
1- run double tampers and 3rd temper in sqlmap and cheack the waf
2 - cheack fuzzing by priv8 dois allow in mysql version

private :) ?

for sell

crater35 - May 27, 2021, 4:32 am

can I take it please ? =)

Error22 - May 27, 2021, 7:46 am

No need this manual is still best through hackbar

I have troubles bypassing "Akamai" WAF
Does this WAFNuke help about it ?

And do you have any experience about Akamai ?

Awesome, where can I buy a copy and what is the price?

Dolla\$ - July 3, 2021, 10:16 am

What do you mean by bypassing XSS ?

tryh83 - August 15, 2021, 11:11 am

can send me my brother please
