Thread: [MERN Stack Web Developer | Web Development Services](#)

happydeath - May 26, 2021, 2:27 am

Hi,

I'm happydeath and I'm offering my services as a Full-stack web developer(MERN Stack).

I'm looking to do work in the following areas:

- HTML/CSS
- PSD to HTML
- ReactJs
- PSD to ReactJs
- Node.js
- Express.js
- MongoDB
- Firebase
- Python Flask

In the past I have done various sized projects, from single-paged applications to full stack web projects.

I have worked on complex structured projects as well!

My portfolio is available on request.

NEW UPDATE!!!

Crypto Payment integration now available for custom websites.

Pricing UPDATE: Prices are negotiable, these prices are for reference

- Static Webpage Development (front-end): \$10/page
- Dynamic Webpage Development (front-end only): \$20/page, you will provide the APIs.
- Full Stack website (back-end front-end RESTFul APIs database): PM or Contact in discord for discussion.
- Integration of your cryptocurrency payments script in your Website: \$50
- Implementing cryptocurrency payments from my private PHP script in your website: \$50+\$65(for private script)
- Implementing cryptocurrency payments from private PHP script and Developing the website (frontend backend): \$50(for implementation of payment script)+\$65(for private script)+\$20/page of the website.

Miscellaneous services:

- For overtime/faster delivery (than expected): \$25 per day reduced from expected delivery time.
- For website revisions: upto 2 revisions are free of cost, after that \$5 per revision.

Cost Estimation will be provided to customers before the work begins, so as to create a window for adjustments!

NOTE: 50% PAYMENT WILL BE UPFRONT i.e at the beginning of the contract and 50% after the completion of work and satisfaction of customer! UPFRONT PAYMENTS ARE NON REFUNDABLE. However if upon completion full payment is done and customer is not satisfied 50% of full payment will be refunded.

Looking forward to working for the community!
