Vouch Copy Review:

Overall Rating: 6/10

CAN you earn with this method? Sure. However, it will take some organization and setup work; finding demand/ a customer base will take time.

Method: 7/10

The method works and is simple. However, it could have been explained more in detail.

Price: 4/10

In all honesty, I would not pay a dime above \$25 for this method. The method WORKS, but even earning back the initial investment will take some time/effort.

Seller: 8/10

Seller was nice and is sure to give you support.

EDIT: The main issue with this method is transferring the credit you earn into usable cash. You will need to find a customer base yourself, although the seller may offer some support on this.
