Thread: [\\$55 in 10 Minutes, Method In Thread](#)

NODOX - May 26, 2021, 9:04 am

Not worried about you posting in the thread and PMing me, maybe leave a post if this helps you, so it can help others.

Easy \$55, Takes 10 minutes.

Requirements: A bank account

1. Download the Steady app to your mobile device:

I ask you to use my referral link for the free method so I get \$5 haha.

<https://steadyapp.onelink.me/ZBz4/7204c715>

2. Link a bank account to Steady, there are no fees you have to pay.

3. Go to the Boosters section in the app, and find the one for "Aspiration."

4. Follow the instructions, and download "Aspiration", through the Steady app, and link your bank account, some of the questions may try to get you to use their paid for service, but you do not have to agree to any of that.

5. Check back in with Steady in boosters section, and it should say completed within 10 minutes.

6. I immediately closed the Aspiration account, because I do not need it, you can keep it open if you want to.

Within 2 days, the \$55 was in bank account.

#There are other decent offers on there, especially if you do not already have some of the apps on the Steady app.

Anybody use this successfully yet? It is pretty easy. Just bumping, because I noticed some people used the referral link, and it truly is a quick \$55.

Can't find the "Aspirations" one. Has it been removed?
