Nice. At least it wasn't a damn green egg!

bellodipapa - May 28, 2021, 7:52 am

wow excellent congratulations bro !

10000 lotteries and mine from 3 years ago still holds the biggest bytes only prize (other than omnis lottos)

<https://hackforums.net/lottery.php?action=view&lotid=4>

Put up 45k bytes for that one. Back when it cost \$10 per 1000 lol, so about \$450

Yeah at current prices that's only like \$150-\$200

Not too much
