Thread: [Be careful! The scammer uses user Percy to deceive people!](#)

gStenley - May 28, 2021, 6:00 am

hello, today I woke up and received a Skype message from this person

IMG:

I created a contract with him, but he asked to use accounts forward because he is a user with a reputation

I was lucky that 'Percy (real user) was online' and quickly replied to me in the chat that this scammer writes to me and he does not have a conversation with me on Skype!

Be careful, because of my stupidity, I almost lost a few accounts.

He ended up blocking me and disappearing :)

Yep some guy is doing this on discord and skype. He just uses popular people on hf usernames to try and impersonate and scam. Rarely he is successful but yesterday he scammed somebody.

Thanks for this thread, it gives us heads up about this scammer.

Hoping no one get hooked for this guy.

Yep, it's probably the same guy targeting 'high rank' or 'high exchanger' members... They targeted me once, but gave up since I'm just a casual exchanger.

I'm already thinking about removing Skype from my contacts, the scammers have already created several accounts like mine

Yeah I would just stay away from Skype, a lot of people stop using it, but the dickheads that like to impersonate HF users are still around on it.
