I have purchased other e-books before and this is definitely the best one and worth the money. Overall the methods are GREAT! The seller wrote a detailed e-book which explains everything step by step including pictures so it is really easy to understand everything and go along. The methods are very unique and I must say that I was surprised when I saw them because I did not know that it can be this easy to make some profit over time. Some of these methods require investment but most of them don't and the ones which do only require a low amount which is amazing! The seller was very friendly and for this price I really recommend getting this e-book.

(May 30, 2021 05:39 PM)SIMCard Wrote: [\[CITE\]](#) OP has given me this method as a vouch copy. I can only say one thing: it's impossible not to earn money with the methods from this ebook.

The headline should be "so under-saturated that you're in demand" - that totally describes the situation at hand.

I did a quick lookup and there are 5-10 people doing some of that right now which is nothing compared to the markets this big. As a bonus, I don't think it's that easy to saturate as there are numerous small variations and changes you can make in these methods.

You could probably earn a lot more than \$1000 per week through the variations and experimenting IMO.

At least three of the methods made me think "this is a total goldmine". Can't wait to try them out
Unhappy customer will be refunded.Given that you try these methods and are unable to get any results

Review time:

This guide does not offer a passive method in 15-20 minutes, as the thread is implying. Instead, it's a bunch of old methods that have nothing to do with this thread. When asked which of the methods from the guide is the 15-20 min passive income one, I was told the following:

amy santiago - Today, 02:33 AM

you can use anything you can see vouches on thread

Of course, none of the methods from the guide have anything to do with what is promised in this

thread. Finally, after asking her once again to show me which methods she is referring to in this thread, she points to one of the methods which isn't passive and where the example doesn't line up with Reality. With a quick search, you can tell that the numbers were grossly fluffed to sell you a dream.

Once I asked for a refund, she denied me saying that I didn't even try the methods. I explained that these methods were not what I was purchasing: A passive income with 15-20 minutes setup as suggested on this sales thread. The response was:

amy santiago - Today, 10:51 AM

No refunds you did not even bother to try these methods.

amy santiago - Today, 10:51 AM

It is not magic

amy santiago - Today, 10:51 AM

no one will give you money for free

We went back and forth a little where I explained that there are legit methods that are passive once you invest time at the beginning. Of course, these methods will earn more if you invest more time but passive none-the-less. Amy argued and argued. I just gave up because I am obviously wasting my time.

There you have it folks. Let's face it, buying a guide for 30\$ that promises passive income is naïve but I think it's important that the community knows that Amy did not offer a method that was promised in the thread. It's just a file with a bunch of old methods, it even says in the document: At the time of writing this, price of 1 Bitcoin is \$5,163. (LOL)

I suggest skipping anything from this seller.

I would avoid doing business with this user until the dispute is settled regarding this eBook. The only differences in the plans are the support given and refund options - which the seller has refused to an unhappy buyer.

Yep. Seller is now posting everywhere that he/she fully refunded me which is true, now that the whole community knows what they are dealing with and seller wants to save face. Here is the last part of our private conversation so you can see it before the dispute thread closes:

SCAM! why is Mr. Stanley in here bumping threats that are scams!@

Stanley - November 6, 2021, 8:45 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
