Atleast go through the link before you claim that it's a referral link. It's not a referral link. Just a shortened link for anonym.to

Though it was a referral as-well, but its actually not.

Thanks for sharing this I doubt you can get 1000's\$ but it does looks like you can make couple bucks there

But i do think it works best for US.

You absolutely can

I can share screenshots of proof as well

The only downside is that you can only redeem for Starbucks Amazon Apple store Uber gift cards

(Jun 1, 2021 04:38 AM)F0UNDER Wrote: [\[CITE\]](#) Hey everyone,

I am sharing a method using which you can make \$1000 per month by simply answering surveys on a website.

The process only takes 5 minutes every day and I literally make \$1500-\$1600 every month using this technique

So here are the steps to get started. Read all the steps before you get started. It's important you follow them properly

Step 1: Go to this URL: <https://cutt.ly/GnhejK0>

Step 2: Click on "For Executives"

Step 3: You need to sign up as an IT user, so select IT as your department and then select "Director" level or above as your position

Step 4: You would need a LinkedIn profile to verify your profile later. You can buy a pre made linkedin profile from one of the vendors online. Make sure the details on the linkedin profile match the details you fill on this platform.

Step 5: Once you are done signing up, simply start participating in surveys, for every survey you get anywhere between \$10-\$100.

There are almost 300 surveys that are available every month.

All I want in return is that you guys comment below so others can also benefit from this. I have got so much from the community that this is my way of giving back to it.

Feel free to PM me if you face any issues and don't forget to post your review here when you make cash outs so others can also see that this works perfectly!

AFAIK, No referral bullshits in this. I'm using this since two years ago. The thing is you'll need to be an employee of any IT company as they verify you by your company's email and linkedin profile.

Thanks for the vouch

I hope more and more people benefit from this
