Purchased the method, works as advertised and you can fully use your PC while it's minimized.

Ty for vouch! Added to main post.

Definitely interested, just curious about which program is being used

It's part of the method, no one else uses it. That's why their bots control your mouse with shitty autoclickers. Buy to find out :)

You won't be disappointed, I bought the Syllas skin (2000) and I'm already back to ~600 tokens.

Used this for around 20 ish hours so far and works as intended. I've done hours and hours of tft botting in the past and this is definitely unique and different method than I used in the past.

Will update this post with my earnings from this method.
edit:

Been running this for around 2 days so far straight.

2k tokens already from missions and it running, easily can hit 5k tokens if I run it everyday till end of pass.

edit:

probably can hit 7k tokens actually by end of pass at this rate

edit:

I've hit 7k tokens this pass using OP's method

Can this play ranked or is it just to farm tokens?

Tokens/TFT pass levels

It can play ranked but you won't be winning with the comps it makes lmao.

Justinpk - June 11, 2021, 9:26 am

Purchased and giving it a go now, it seems to be working well. I will update if any issues but so far looks like it will do as it says.

it definitely would work, does require buying to pass to get the most tokens but it works even without it.

Drizzled - June 14, 2021, 9:10 am

Raising price to \$15 after today. Get a contract in before 11:59 PM EST today to lock in \$10 price.

orbitz1122 - June 14, 2021, 12:37 pm

Works perfectly as intended and pretty unique/safe method.

Definitely worth it.

Hey, do I need to purchase any additional package on riot store like the pass or whatever?

You need the pass for whatever event is running

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Seems like a super great idea.

Farm event tokens to get prestige skins for LoL then sell the accounts.

Just out of curiosity, how well do the bots perform in-game? Also, am I able to run this software on multiple devices or am I only contracted for one download?
