Hello and welcome to the sixth official Panthers membership spot contest!

We will be selecting 10 individual users for this, meaning you have 10 chances to gain entry into the group! How cool is that?!

We're looking for members who will be active, engage in group conversations, and if you're comfortable with it, also join some of the daily Voice Calls that we all have! With this entry, you'd be joining not just a group, but the Panther Family.

We will be choosing 2-3 members each week until the contest end date on: July 3rd, 2021

Directions and How to Enter: [\[READ\]](#)

Copy & Paste the template provided to you below and make a post explaining why you wish to join Panthers, and what joining the group would mean to you?

Provide some popularity to me (+1 for L33T, +3 UB3R etc) if you're a non upgraded member then just post! This makes sure I can acknowledge your entry on top of the notification from posting.

Explain why you would be a good fit for the group. (Go into detail here, the more YOU stand out from the rest will better YOUR chances of being chosen!

In one to three sentences, tell us a little about yourself? This can be online skills, IRL personality traits, or even just what you enjoy in life. :)

Rules and Requirements: [\[READ\]](#)

No open Deal Disputes or Community Alerts.

Account must be at least 3 months old with minimum 50 posts.

Why do you wish to join Panthers? The Panthers group appeals to me the most out of all the groups I've seen on Hackforums. They stress a team mentality, which aligns with my belief that we hackers should stick together. Black Hat or White Hat, it will become clear that we all have similar interests.

Why would YOU be a good fit for the group? Personally, I believe that I would be a great contribution to the team. I may not be as OG or reputable as some of the other members, but I have the mentality to prove myself an invaluable teammate and brother to the Panthers. I can help around with coding projects, bug bounties, malware analysis, and much more. I've never been in a group on Hackforums, so I'm not 100% sure what it entails, but I will be ready to help during my time as a Panther.

In one to three sentences, tell us something about yourself: I'm a C# Programmer, with experience in web development as well. I chase bug bounties in my free time. I always try my best to eliminate a serious / formal atmosphere, it's no fun.

Anything else you would like to say? Panthers has the coolest group name.

Xen - June 10, 2021, 5:41 pm

Went ahead and added [Melted](#) and [Aeowulf](#) (again, lol).

Keep sending us your applications, you can apply to more than one competition and win more than once also! Just keep your applications to one per contest. :)

Enjoying reading books and listening to audiobooks.

Deep researching specific interests in the internet.

Why do you wish to join Panthers?

I have been on HackForums for quite some time but, never managed to be a part of a nice, close-knit group of people like you all and therefore I would like to join The Panthers

Why would YOU be a good fit for the group?

I can be a valuable addition to the group. Professionally, I am a UI/UX designer and I would help you and the group around with designing if required. I don't know what a group actually does in HF but, I sure can bring good things to the group.

In one to three sentences, tell us something about yourself:

I am a rock music lovin' UI/UX designin' guy from India :)

Anything else you would like to say?

Nothing much. Stay safe all of you all and take care of your loved ones <3

Oh, and you have a very sick-looking animation in the signature.

x_x - June 15, 2021, 7:23 am

I am; 18-23, male and somewhere in Europe. I wish to join beacuse I hope to meet others who like to reverse engineer paid software and malware as well as make some new friends! I can't promise I'd be a good fit for Panthers but I hope I get the chance to become friendly with the rest of the group. I am an iOS cheat developer mostly trying to fugg over antichecks and game developers, I am in college studying psychology and math. Some other things I enjoy are: learning Japanese, fucking with discord staff on hackerone, working on POC malware for iOS and working on my casino site. Also I am getting a libel savannah cat...kinda like a panther. Sorry that I couldn't follow the given template but I am on my smart TV :>

Zeus - June 15, 2021, 11:25 am

Glad to see more people applying lets see who gets in on 18th!

Why do you wish to join Panthers?

I've been looking for a group of like-minded individuals to join up with. From what I've seen Panther's seems to be the largest and most active group on HF which grabbed my attention immediately after becoming a member here.

Why would YOU be a good fit for the group?

I'm an active HF user, I've been posting daily since I joined. I want to learn and share knowledge on a variety of topics. I also tend to get along with most people as I'm generally respectful towards others.

In one to three sentences, tell us something about yourself:

I am currently a Cybersecurity student pursuing a career in that direction. I consider myself a n00b hacker as I'm still learning and still working my way through beginner and intermediate rooms on HTB and Tryhackme. I love technology in general. I'm also an athlete and promote health and wellness and to help others achieve more in their lives through encouragement, sharing past experiences and more.

Anything else you would like to say?

I don't meet the 3 month on HF requirement, hoping I can get pass for this one? If not no worries I'll try again later when I do meet the requirement.

Why do you wish to join Panthers? To learn and to share what I have learned.

Why would YOU be a good fit for the group? I have not been in a group for years, basically was a founder of the R.A.T. group in 2011-2012, but am now trying to make money and learn white/greyhat.

In one to three sentences, tell us something about yourself: I am going to school for computer science. I have no role models. I have self taught since 12. I want to make money, and help others do the same. I am tired of the ways of the world. I see that the internet/clearnet is turning into the

matrix/being censored like a communist state at least in the U.S.A. and want out.

Anything else you would like to say? I want in a group that I can learn, sorry if I should not have put my answers in bold and here is the rep.

Stanley - July 2, 2021, 9:45 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
