Thread: [Partner for Spreader \(Got Rat, Crypter and Spreading Method\) Looking for Helping Hand](#)

Mark2022 - June 4, 2021, 2:06 am

Hello Community

I am looking for a Partner (a helping hand) to work with me on spreading. I got all the tools ready and got working spreading method which I have already tried and it worked well.

Question must arise, why I need a partner if I got everything?

- This is a bit time consuming method so if the work is split it will get 10x more spreading.

Would be Plus point if you are good with making videos or making UI.

In return I am ready to share with the partner what ever we decide.

for more info or any questions feel free to ask me over here or Pm me.
