Good Job! Hope that turns into 100K and that you're investing so that money works for you.

Where are you running the ads?

Great sir, that's nice! Keep going on :)

I have a couple questions:

- Which country are you targeting
- Which network is that (If it is) and can you have your own landing page on that?

Thanks

Damn thats crazy how old are you and when did you start?

Lorem Ipsum - July 4, 2021, 9:32 am

Happy to see you are making money.

Keep it up!

How did you get started? Like, how did you find companies/products to run ads for? And how long did it take to set up your ads?

I've been interested in this for a while but everything I see/hear seems to say that affiliate marketing is dead so I've not really looked into it.

You should write a guide, maybe, if the profits are really this strong.
