Thread: [HOW TO GET AMAZON GIFT CARDS FOR 50% OFF AND SELL THEM FOR PROFIT](#)

Justace - June 6, 2021, 11:51 am

I've got a method on how to purchase Amazon Gift Cards for 50% of their value. The denominations of the gift cards are \$50 and \$100. The gift cards are only for Amazon.com. I will also show you a website where you can sell these gift cards easily for BTC after that.

Ofcourse, you can use the gift cards for personal use too, they are 100% safe.

Take on mind that there are limits on the amount of AGC you can purchase which increases with the amount of orders you complete. The startup limit is \$200 every 24h.

The method works worldwide.

No KYC needed.

All the gift cards are 100% legally obtained.

The price of the method is \$300.

Accepted Payment Methods: Crypto

Alright, my review. This method is all legit. I was a bit skeptical at first but all doubts are gone now. I got an amazon gift card for 50% and redeemed it. Currently in the process of selling it (which I have done before and can confirm is working), however, you could use it to buy stuff if you wanted. Op was friendly and helpful.

I paid \$50 BTC and received \$100 AGC. I will be scaling this up to the max and posting results.

This is a legit method and has worked well for me!

(Jun 9, 2021 02:21 AM)FaceTehWind Wrote: [\[CITE\]](#) Purchased this method, will update this post with a detailed review soon.

Edit:

After using the method for a day, I can definitely vouch for it. The method is simple and easy to follow while also having a great support line by Justace. Any questions I had were answered fully as he's been doing this method for a while so he is quite experienced in it.

I bought a \$300 giftcard right away on the 50% off and by following the method I was able to sell it for profit.

One thing I love about this method is it's scalable in a way, As OP said in his main post. "Take on mind that there are limits on the amount of AGC you can purchase which increases with the amount of orders you complete."

Once you get to the higher tier of limits that's where you can scale it to more profits.

I will update this thread with my proof of payment for a few more days

\$200 is the limit per day once you start, when you complete orders, your limit increases.

Can be done on multiple accounts too.

How long does it take to get the first \$50/\$100 gift card?

Can this be saturated or will it get saturated?

Can we increase the daily limit other than completing orders (like making multiple accounts or doubling the effort to get it?)

Can we scale this up?

Do you accept middleman?

Can you explain more about the method?

Can you show some proof of its (gift card) working and legit?

Getting the cards is really fast, it's matter of minutes. You can increase the daily limit yes, the method can be scaled. I don't want to go into more details, simply you buy them at 50% and resell them for a good profit.

Okay, I purchased and I promised I'd update the thread.

My first impressions are purely positive. After you've paid, Justace invites you to a Discord and you'll also meet some other customers there that also bought the method. There's not too many people there right now, but that's always a good thing (although I doubt the method can be saturated anyway, so I would not worry about that).

It's unlike anything I've personally seen on HF before, in terms of how it's set up. I haven't performed the method yet, but it looks like it will make money and it's so easy. You do a few things and then you just wait a little bit to be paid.

So far, so good!

Talking to seller. Won't go first to me, even though he's a fresh new account pushing some new method that nobody has ever heard of.

Vouches are all from newish or not much activity accounts.

Asked seller if he'll use a MM and he gets paid when I verify it works and isn't public garbage, which shouldn't be more than a few hours. He said he charges 2x for that. Maybe some diversion tactic to get people to pay him straight.

I'd be wary if I was a buyer, with such a negative minded seller. DEAL WITH CAUTION

Justace - June 11, 2021, 8:27 am

The guy is mad I refused to go first with him. All my customers paid me upfront so it's not fair to give him the method first because he has a lot of B-rating. Also yes, I accept usage of MM but at 2x price. If you don't want to pay extra, don't complain.

First "bro", I'm not mad lol. I'm just scoping how legit you are. Which you aren't. I asked you to justify why the 2x for the MM and you said you're taking advantage of a working method that's why.

You sound like a price gouger and your sales/vouches are all from questionable accounts. Your account age is 11 days and you're mad that I asked you to go first or use MM without the 2x? Hence I approached like this instead of splurging any amount at you from your claims.

(Jun 11, 2021 08:20 AM)Bear Wrote: [\[CITE\]](#) Talking to seller. Won't go first to me, even though he's a fresh new account pushing some new method that nobody has ever heard of.

Vouches are all from newish or not much activity accounts.

Asked seller if he'll use a MM and he gets paid when I verify it works and isn't public garbage, which shouldn't be more than a few hours. He said he charges 2x for that. Maybe some diversion tactic to get people to pay him straight.

I'd be wary if I was a buyer, with such a negative minded seller. DEAL WITH CAUTION

(Jun 11, 2021 08:33 AM)Bear Wrote: [\[CITE\]](#) First "bro", I'm not mad lol. I'm just scoping how legit you are. Which you aren't. I asked you to justify why the 2x for the MM and you said you're taking advantage of a working method that's why.

You sound like a price gouger and your sales/vouches are all from questionable accounts. Your account age is 11 days and you're mad that I asked you to go first or use MM without the 2x? Hence I approached like this instead of splurging any amount at you from your claims.

I feel like I have to defend myself here as you're calling my vouch questionable and maybe my account. I don't consider my account to be questionable or my vouch to be either. Being on HF for 5 years I don't any bad reps or bad trades with all the high vouched people I've dealt with.

I can only share my opinion on the seller and his method. I was the second person to purchase this method, You can say it was taking a risk you can say with how new his account is but now I don't see it as that after receiving the method and talking to him over the past few days.

Proof I get giftcards through his method daily.

I questioned your activity as it's not as much for me to tag "trustworthy" with it. Nothing against you.

And yes, you assumed a risk by buying this method and the way the seller is acting, it only increases that risk. I'm going to ask every single person interested to be very careful with this seller and this method.

Not everyone should be asked to take a risk because you took a risk and it worked out for you. The same logic applies if roles were reversed. I understood him not wanting to go first hence brought up the MM deal to which he tried to abuse the scenario and ask for 2x lol. You may not know this but the method could be some public junk sold in a "private" wrapper. As a potential customer, I have every right to want to question where my money is going. Seems like seller isn't interested in making sales but more so to take people's money at the highest price possible.

Either ways, DEAL WITH CAUTION!

After 3 days of using method, how many AGC can you buy daily?

XODandy - June 11, 2021, 3:38 pm

I bought it, this is a pyramid. OP has blocked me & kicked me from the server once I said that. Also,

he claimed to refund me but it seems he just made time for him to be able to scam more. I'll set the proofs and open a dispute, meanwhile, if you are smart enough, do not make a purchase of it

xc0z - June 11, 2021, 3:40 pm

Literally as I suspected lol..... the person who vouched for him is also in on it.

elkaa - June 11, 2021, 3:54 pm

it's summer and there will be more scammer going on this website is at buyer risk so scamming is allowed to seller always use mm if he don't want = scammer so no deals keep safe

By "the person who vouched for him" if you mean me.

Nope, I'm in on nothing. I received legit method from OP and have had no issues with the method or OP since.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

????? how can I smell bs methods from far far away? ??

Rexxleo558 - June 11, 2021, 7:40 pm

Smh I had def had a funny feeling about this. Especially since I know for a fact Amazon will ban you account if you redeem to many gift cards....

Stratosphere - June 12, 2021, 2:31 am

Not a fan of anyone implying I'm part of a scam. I bought this from OP first and so far it has worked fine for me. I was pretty hesitant and worried when I first bought as it sounded sketch, but have made my money back now. I can only vouch for the experience I have had. And for me it has been positive. I don't want anyone to get scammed so I hope that doesn't end up being OPs intentions. But so far I haven't had an issue.

My first impressions are purely positive. After you've paid, Justace invites you to a Discord and you'll also meet some other customers there that also bought the method. There's not too many people there right now, but that's always a good thing (although I doubt the method can be saturated anyway, so I would not worry about that).

It's unlike anything I've personally seen on HF before, in terms of how it's set up. I haven't performed the method yet, but it looks like it will make money and it's so easy. You do a few things and then you just wait a little bit to be paid.

So far, so good!
so did you get a card or not

a wake up see this shit right before I was about to pay. so there is no method at all?

Justace - June 12, 2021, 5:21 am

The method works really well. All my customers are saying it's legit but just 1 random guy saying it's not valid. If you compare accounts of my customers to his, you can decide which is more legitimate.
