Thread: [\[0/11 Copies Left\] \[EARN \\$8k/\\$12k Monthly\] Private Mentorship / Greyhat Method](#)

HERMES - June 6, 2021, 3:24 pm

Today I am listing my private method for sale. I have sold a couple methods such as E-Whoring, Social Media, etc before.

However this method has been a primary source of income for me since 2015.

Usually methods surface the net and they last for a couple of months and then proceed to fall off.

This one has always brought me stabailiness and a generosity of income in a quick manner of time.

Many methods I have tried or thought of only last for a few months until somebody or some business

catches on and it deteriorates. Yet - this business has only grown for me over the years as the world progresses.

While the business is fastly growing, the market just keeps opening more and more.

The issue I ran into about 6 months ago was not being able to have taxable income,

I'm seeing now how you can file for self employed etc. But with all of this money I make from this it is great and all but I am becoming an adult now.

So now it is time for me to start flipping real estate, getting loans for investments, what not.

With that being said I have had to get me a full time job to have money on paper, and do this on the weekend.

I wish I would of told myself this years ago. I can sit here and stack up \$100,000 all I want..

But in the real world your money is useless if you do not have good credit and taxable income.

That is why I am here today wishing to sell my personal, private, and self-wrote method that

I thought of about 5 years ago and have been continuously working on to perfect my craft.

A lot of stuff I know comes and goes but this ones different, this one is my baby.

Usually I make fancy threads, yadda yadda ya. But today it's less of getting sales to me..

More than making sure the team we form are intellectual partners we can have among us.

This method requires a full day or two's worth of startup. Small initial investment.

You're initial investment will be less than \$100 at all times - however there is no stable price.

The location you are in - does not matter either. HOWEVER.. Your time zone does.

Money is good only at certain times of the day, so you will want to make sure you can work those hours.

No, this is not any crypto trading or whatever else crap.

This method CAN get saturated. However I have very well limited

the amount of copies to make sure this market will never get saturated.

The only way it can - is if 2,000+ people started doing it.

So within the 10 copies, we are very well safe.

All of your payments will be paid out in Bitcoin.

However if you don't like Bitcoin, you can also convert different ways that I will teach.

You will get paid via just about every form of payment.
But I show you how you don't even have to touch any of them.

Payments will come in waves of \$200, \$400, \$750, \$1,000, \$1,500
for the most part. Of course those numbers will be a few dollars more a few dollars less.
I would like to say this has nothing to do with anything dark blackhat,
no card swipings, no refunds, no ewhoring, no cpa, no ppd, literally
nothing you guess will be it. This is a NEW method. Old to me, new to you.

Here are some examples of income:

First come - first serve. Please, do not message me if you are not genuinely down to work.
A vouch copy is supposed to be someone who goes out - actually reads the method -
does the work - gives an honest review - with real earnings.

So if you just want one and can only provide a written review just from reading it, please do not ask. Thank you!

T.o.S

Spoiler ([Click to View](#))

1.) You will NOT leak this method in any way shape or form

2.) If someone contacts you in regards to this method, inform me before you reply. I do not want any hints being given out.

While you can still give them an honest opinion - I do not want to risk the community we will build to have leeches.

3.) For a FULL refund, you must work with me. Follow my steps appropriately. And make sure I am beside you at all times.

A FULL refund will NOT be given out if you did not put in any or nearly enough effort to even try making money.

4.) Leeches WILL be kicked out of our group we form.

5.) Any reselling will result in a kick, bad partnership, and a report.

6.) If the Bitcoin moves from the address I sent you within the 2 weeks, I am fully responsible for violating the refund policy.

Your funds will be secured and safe until you make profit.

Awesome! I'll shoot you a convo, I have sold two pre-release copies on Discord to help with the release of the final version.

So there will be two others as well coming soon. Talk soon!

sORA - June 6, 2021, 5:54 pm

I have bought the first vouch copy and upon my first read some parts did not make any sense to me. Hermes cleared them all up for me and it all had me in shock. Stuff like this always shocks me like how did i not think of this? Either way I knew about this world but never even thought about the money potential in it. I actually was contributing to his method before hand without even knowing until now. Holy crap. Whatever though. That just means more money for me from now on. I already know this will make me a lot of money but i am talking to Hermes now and am getting a full understanding and will have it all ready by tonight or tomorrow. This is only a review from what i have read. I will update when or if I make money but it seems like i'd be dumb if i cant.

Sounds good family!

If anyone a bit more known comes through I'll drop first copy to \$400! ?

Looking to build a community rather than just sending you a PDF and we both go separate ways, so if anyone's looking to buy and just go out solo. I'd rather not sell. Psa to all. <3

Giving a vouch to someone with less B-rating doesn't seem to be trustworthy. Posting here to see if someone who's more trustworthy buys and reviews it.

I'm just saying it may be a bit more harder to find someone with a higher b rating than me who is also looking here, and wanting to buy, yanno?

I'm interested but no contracted customers or proof posted as yet.

Have a few questions...

Are you able to elaborate a little more (without giving anything away) on how this works?
How grey hat are we talking?? What sort of investment post purchase is needed to make this work?
How much work is involved day to day?
What other things do I need to have (ie, do I need a VPN for instance) in order to make this work?

Hey brother! I have no idea why the contracts are not showing up,

I can send you screenshots that they are contracted and linked to this thread. Weird it's not saying that.

However I have sent you my Discord for faster communication, ready to answer all questions. ?

One of the guys is making actually insane progress right now, he said that he will be posting an update tomorrow after IRL work.

Reserved a spot. Will update this post with a detailed review in a couple of days.

Edit: Update on progress

Just did my first mentoring session with HERMES. He introduced me to the method and ran me through the first phase of it. I can vouch that you won't find this method anywhere on hack forums or elsewhere as I personally didn't think of doing it myself either and never came across it. Along with this with the low quantity of copies being sold, I don't believe it would get saturated at all especially with the quality of the method.

I've done a few mentoring sessions in the past with other HF members on private methods and this probably one of my favourites so far. As OP said in his main post, it's not about getting sales and more of building a team of intellectual partners. With the low amount of copies available and experiencing that mentoring session, that's something I can believe for sure.

It wasn't just "here's the method" and leave scenario like some mentors do but ensuring I understood the method fully while also answering any questions I had. While it not be limited there, but also getting on started on the first phase of the method while in call so every step is crystal clear and if isn't, can be explained clearly. As well as getting to know the mentor and vice versa as well.

I'm on phase 1 right now, so once this is completed I should start to see some money flow in soon like Soba and I can add that proof to this post.

Had to much fun talking with HermeS so we lost abit of time and got off topic, lmao, but it's all fine.

And yes, like mentioned in the post, this COULD get saturated. But i don't think it will, atleast not for a good amount of time. I have never heard of anyone that does this, nor seen, or thought about it before.

Today we are gonna actually get going with the whole "method", and i am so excited i can't wait. I will update how the earnings go in the near future!

Phase 3.) How to scale and maintain

Each of these sessions last around 1-2 hours on average.
And I am booked up everyday while also waiting on others and their schedules.

Everyone, even the ones who are a little behind, are on track still to make more than what they paid per copy.

This method is a snowball effect, and grows as you work.
For example: If you only make \$1k your first week, your next week will be around \$1.5-2k.

So this is an actual process.
Which a lot of bullshit standards are set on HF.
People sell autopilot dreams on HF, I don't.
To earn money, you have to work.

So I ask you - and others who may be interested.
If you want to come aboard, do know that you can not just send me money
and receive instant payouts with no effort/time/work put in.

Actual methods require actual work my friend.

I hope this answered your response! :)
May be a lengthy response however this was a message to everyone/future buyers.
All customers are beyond happy and on track to make great funds.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Or \$350 off if you are willing to pay me 25% of profits made until \$1,250 is met.
This limited deal will not be offered again, and please do not ask to reserve any spots and or ask for this type of deal after they are already taken.
Still got any slot left? Interested but i need to talk more and get more information about this first, if you good can you tell me your discord?

Looking forward to working together Hermes.

From what I've seen so far, Hermes is a pretty stand up guy. I've been scammed on this site before but after doing some vetting and also him answering my million and one questions, I'm going in pretty confident that this is the right investment.

Phase 1.) The Setup.
Takes 1-2 days to get setup.

Phase 2.) How to control the income

I'd love to buy the last copy if any of those above me can post their earnings.

HERMES - June 14, 2021, 4:36 pm

All copies have been sold! :)

Going to leave this thread open for a couple days whenever I tell everyone to post their income.

I want everyone to be able to show 2x their investment on the first set of income post.

So please if you have bought, and you have only made your copy price back. Please post at 2x! :D

Can't wait to see everyone bragging!

Closing thread up in mean time until everyone's closing up on Phase 2 / Entering Phase 3.

Still getting a few messages about copies.

Will reopen when everyone who bought is ready to update full time earnings.
