Been using this for months, 100+ accounts done offsite with 0 bans!

Shadow bans are caused and are dependent on ingame reports so it probably wasn't the only thing you were using

Posting to come back to this, highly interested.

Hi, we've had 0 bans though to be completely transparent, using any services like this for a quick fix within any game pose a risk, thanks!

I'm interested in this but I need to know if this is done with the HelioS-Framework tool first.

Is there any specific way to avoid a ban after using this? Or would it just be completely randomized

If you play legit, no cheats, you should be fine, we've been doing this for months with 0 bans

The only reason someone would report you is for CW camos on MW weapons (Example: DM Ultra on MW weapons); and still it would take multiple of these reports to take effect on your account (a shadow ban) other than that, the above, if you play legit, you shouldn't have any issues whatsoever keeping in my mind what i've previously stated about quick fixes within games, thanks!

I'm EXTREMELY interested but I'm very confused to how you are doing this. For MW store skins would these "blueprints" work as if you bought the packages straight from the store? So like you're able to take it off, put it back on at any time you want? Like it's not locked too your custom loadout and if you change it from the loadout you'll be able to put it back on through the armory tab?

for \$40 would that just be the 1 skin? or as many as I want from the store? Sorry for the questions but I'm just trying to figure this out.

Correct, store weapon blueprints/skins will be saved as blueprints within the weapon armoury, these can be applied, removed when you want

The \$40 deal will include as many store weapon blueprint/skins as you like with desired camo, 1 operator skin, 10 cards/emblems, vehicle mods, watch

Hopefully that answers your questions, feel free to add my discord for any further questions

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
