Are you into the older anime music? Recently gotten into 80s Japanese pop and future funk music and discovered an exorbitant amount on YouTube.

One of my favorite anime openings growing up:

I have a small little J-pop playlist on Spotify, but I haven't listened to it in years.

This one is my favorite though. It was used in one of the Naruto intro's.

Mannn that one brings me back even more! Naruto was definitely a big part of my childhood and then I got into Shippuden in my early 20s. For me Naruto in general was just a joy to watch from start to finish. It seems to get a lot of hate too from the hardcore anime lovers but I don't care, it's up there in my favorites with DBZ, Bleach, and Fairy Tail.

I grew up with Naruto and DBZ, so I can't hate on it. The later episodes have a bunch of fillers but I just liked Naruto so much, I didn't care.

Yeah the fillers got pretty out of control in Naruto. Reminded me a bit of Bleach, like entire arcs that are just filler. Either way I agree, Naruto was just so fuggin good if I was watching a filler it was whatever haha.

As for DBZ... yes!! DBZ will probably always remain my favorite anime of all time.

Bleach has recently came out with the last of their Blu-Rays. So, all the episodes are getting a good remastering :D

Episodes 280-308 in blu-ray came out in June this year. I haven't watched all of Bleach so I will be starting from scratch!

Oh I was unaware of the blu-rays! I like having physical copies of things and I haven't bought a blu-ray or DVD in probably a decade but these have piqued my interest since I wouldn't mind one bit re-watching all of bleach (Ichigo is probably my favorite anime character ever). Definitely going to check these out thanks!
