Thread: [\[\\$75+\] START YOUR CRYPTO PORTFOLIO - ALL MEMBER CONTEST CRYPTO GIVEAWAY, ENDS 6/25](#)

SIM-3749878 - June 17, 2021, 3:59 am

WIN THE FOLLOWING MIX:

ETH: 0.005

LTC: 0.1

DAI: 25

XRP: 15

RVN: 100

XMR: 0.01

At 13:37 GMT+1 17th of June 2021, this mix was worth \$77,13.

All you have to do, is post in this thread. I wish you a happy mental state, have a good day!

Hi dear Hackforums,

I have recently gotten into crypto big thanks to Hackforums. I first got into crypto very subtle when it first came out and frequently traded Bitcoins for RuneScape gold. It was like \$6 at the time. However, I kind of forgot about it and the years passed. I watched the train go and I missed it. I was also in a financial situation that did not allow me to invest anything, I did not even have \$10 to spare per month. For years. So, all I could do was spend time educating myself on the subject, and I have succeeded somewhat. Today I regularly trade cryptocurrency, I have one computer with a 3900x for XMR-mining, currently making about 0.20-0.25 XMR per month. I also have a 3060 in the same computer that is generating about 0.05 per 25-35 days with Ethereum.

On the 6th of June, I made a trade that generated almost double profit, \$900! Yesterday, I made another trade worth \$300 profit! And also, I have not yet made one trade (on my current "ride") where I lost money. I either sold for profit when it peaked and I made good money, or I waited for negative trades to go back to +-0. I also managed to have composure when it was back to break even, so I even waited to sell and managed to make a profit.

I've done like 30 trades since May, like 5 of them generated me \$300+ in profit, while one of them generated a whopping \$900! The other trades are anything from \$0-50 and maybe a few \$100-200 as well.

I've been blessed with my trades recently and I have learned a lot. And as I said, it all started back in 2009 or so here on HF who taught me how to use the core client and how to accept payments, then I generated income by selling services on RuneScape. I also remember running a VPN-service for a year which accepted Bitcoin as a payment method. Lovely times... Absolutely amazing.

Anyways, sorry about that, I just really love you. I have decided to arrange a giveaway and the giveaway have very specific rules that must be followed.

Official Rules:

1. One reply = one entry. Max one entry per person. Multiple posts in thread by same user is allowed, but still counts as only one entry.

2. Normal members have a naturally higher chance of winning. This is accomplished by a scramble that I just made up and will be explained below*.

3. Winner must take the winnings "as is", it is not possible to merge the winnings value into one coin. Each coin is to be sent as is, or ignored. If ignored, then the winner can appoint another member who the coins shall be sent to. Me, "Sharky", take no responsibility for sending coins to a 3rd party winner if they were to fuck something up.

4. I am allowed to at any time change the rules or the entire thread. <-- No

The giveaway!!

WIN THE FOLLOWING MIX:

ETH: 0.005

LTC: 0.1

DAI: 25

XRP: 15

RVN: 100

XMR: 0.01

At 13:37 GMT+1 17th of June 2021, this mix was worth \$77,13.

All you have to do, is post in this thread. I wish you a happy mental state, have a good day!

The winnings will be sent to one single winner. The winner must provide an address for each coin. I cover fees.

Giveaway end date: 25 JUNE 2021, NO SPECIFIC TIME OF DAY (MY TIMEZONE IS GMT+1).

* "The Scramble": If 1 upgraded user post in thread and 1 "normal" user post in thread, then I will shuffle only once to find the winner. If 2 upgraded users post in thread and only 1 normal user, then I will shuffle twice. This is because naturally an upgraded user has a 66% chance of winning, (right?) and therefore I will shuffle twice. If 20 upgraded members post and 100 normal members, then I will shuffle Once. If 100 upgraded members post and 10 normal members post then I will shuffle 10 times. Have a better idea? Suggest it and we'll change the giveaway! <-- No, we'll do it my way.

HACKED - June 17, 2021, 5:03 am

Read your story OP. Many of us had the chance to acquire really cheap Bitcoins but didn't do so. We can't change that. We can prepare for the future though. The Bitcoins we grab today may prove to be a really cheap buy in five years.

Anyway, thanks for hosting OP. Have a nice day.

Yanix - June 17, 2021, 5:14 am

Good start for your crypto trading and good luck for more future endeavors and hoping you got more profits in the coming days.

Taking my slot for this giveaway and hoping to win some if I may deemed lucky enough :)

Thanks for hosting this giveaway [SIM-3749878](#)

Seems like a very interesting contest and the prize has a nice size too so thanks for hosting this OP.

I'll take my first entry here. However, I don't think you can change the rules of the contest at will. Please ask a mod to clarify.

Junot - June 17, 2021, 7:18 pm

Nice experiences shares.

You have started nice works with trading on Crypto market.

Prettykitty - June 17, 2021, 10:04 pm

Good to hear you're doing well in the cryptoverse, going to test out my luck on your contest.

Thank you.

A + - June 17, 2021, 11:21 pm

I'll grab an entry. Great diversity in your portfolio if I say so myself. A few high market cap coins, a couple of coins with potential (moonshots), and a stable coin. Keep it up man.

(Jun 18, 2021 01:07 AM)Yung Zel Wrote: [\[CITE\]](#) Entering and I thank you for this. Crypto is a good space and a small amount can turn to a large amount with patience! Finally a not upgraded member! Ok so we have 11 upgraded members and 1 "normal" member. Just to explain my scramble: If the giveaway ended today, then I would shuffle 11 times.

I hope you will win Yung Zel, yeah saving crypto is a great idea!

Good luck everyone!

Thank you for the giveaway OP. I enjoyed the read. Despite being upgraded (someone else upgraded me) this would be largely helpful to me. But I wish good luck on all that enter! Especially the non-upgraded members.

Hope everyone reading has a fantastic day.

SIM-3749878 - June 25, 2021, 4:53 am

Starting to compile an Excel-sheet now where I will post the first poster in this thread on the first row and then the next entry on the second and so on. Later, I will use random.org to shuffle between 1 and whatever number we land on. I will shuffle the number of times as described in the scramble. Entries are still allowed and I will close giveaway later today and present the winner. Give me at least an hour, but maybe I'll wait for like... 8. It's only 2PM here after all. Have a great friday everyone and we'll talk soon!

Entries as for now (I would shuffle twice):

Rolling now, 21 entries, 2 non-upgraded members so rolling twice:

First roll:

Second roll:

Winner is: A + !
