Thread: [WHO HAS BEEN DONE DIRTY BY COPS?](#)

NODOX - June 17, 2021, 10:27 pm

I personally have a clean record, AT THIS POINT IN MY LIFE, after 3 or so felonies and around 6 misdemeanors. My first felony was for hacking/social engineering when I was a member on here 12 years ago, and learned about "social engineering." Glad that website got shut down, I guess, lol but it did make me the richest 12 year old I knew at the time lol.. Anyway that is irrelevant, I just want to know what your story with cops/law enforcement have looked like because the last few times i was done really wrong by them.

The last time they brought me in on a petty \$100 bond misdemeanor warrant. As the cop searched me he put a few tiny nugs of weed in my hoodie, then handcuffed me, because, he felt like a bitch for only getting me with a misdemeanor, when they surrounded my place of business with 10+ cop cars, and they knew they would get a felony if I entered the jail with anything illegal, so they snuck the weed on me. Luckily I found it and it was discarded safely before entering prison for the night.

Time before that they found me with a misdemeanor amount of MDMA, and to make it a felony, they weighed it with the bag. MDMA weighed 0.3 and was for my girlfriend and Is anniversary, not even junkie shit. The bag weighed 0.8. The felony limit was 0.5... Also to make it sound a little worse they labeled it meth, even though I know it was clean and 84% pure back in the good old days of the DNM, past statute of limitations when I was still a minor.

...

Another time while working at a liquor store, they sent in an underage kid with some terrible ugly makeup to try to get me to sell to a minor, and when I called her on it, she continued to lie twice which is completely against "ABC" rules in my U>S> sate at least, and as I recorded her out of the store, they just flashed their lights and drove off, and couldn't even say sorry for trying to ruin my job and get me to go to court and not have a liquor license, and lose the ability to get hired at any store selling liquor...

Then I had another one purposefully slam on his brakes, to cause a wreck, and get an insurance claim.. While my car was totaled, airbags blown, nose messed up. His car only had a broken taillight, we were going less than 40 mph. I could have fixed it for \$40... Instead the man, his wife and baby, who walked and drove away just fine, with 10 cops looking at them and myself, from the incident decided to sue and go to the hospital the next day and won for \$25k.. Which caused a revoked license and an SR-22, and at the court hearing he wore his police uniform even though he was in beach clothes during the wreck. So he ruined my car, made me get my license revoked and now I am 3 years into 5 years of an SR-22 because of this scamming ass.

I have countless more stories about the shit they have done me dirty 100 more times. I dont believe its a race thing anymore, because I am white, I think its just some college dropouts with anger and control issues.

I needed to vent.. They are not all bad, only because one friend of mine, who basically raised me, is a cop, but for the most part they just get off on hurting people it seems.

Tell me what dirty thing a cop has done to you.

Sorry for any typos, just venting right now, because they took a friend or two fo mine that never

deserved it..

I've been done dirty by lawyers, but not really cops aside for one time I was leaving a nightclub and was drunk. I asked a cop a question and he asked if I was drinking and took me to lockup for the night. I was charged with public intoxication right outside the bar where there was around 100 other drunk people. I wasn't too impressed.

At the same club, I was outside having a cigarette with a black friend of mine. The cops drove by staring at me, and my friend jokingly said "I smell bacon" under his breath. They proceeded to push him against the wall and arrest him, which I don't think they are allowed to do for him saying that but whatever.

Lawyers just want money, imo. Cops have some caveman instinct to exact power they never feel like they were given by their daddies or took on their own, and have to exact show it off with a gun a shirt that makes them legally allowed.. Any crazy asshole with any mental illness can be a cop.. They don't do it for money though because the money sucks for most of them.. But yeah I understand attorneys too, but they get paid at least, being an asshole or being your savior.

Never had a bad run in with cops but I keep my nose clean.

Bingo. It's crazy how non-drug dealers without warrants don't have bad experiences with the police.

618C - June 18, 2021, 2:14 am

never ever done dirty by the cops, that is possible because i never ever get into troubles with em :)

Pawnhub - June 18, 2021, 4:58 am

I was arrested 2 weeks ago because a cop didn't like my attitude when I was yelling at someone else who was yelling at me, yet i was the caller calling on them lmao. He didn't say a word to them, they nearly caused my girl to miscarry but since i got a record and opened my mouth oh such a big deal now after being told to die and that i'll be killed yadada now the cops in my face?? LOL.

Then the stupid fuck thought he could intimidate me face to face and it all went down hill from there..

Then county jail stole \$140 out of my wallet that I signed for, yet on receiving my items that were vac sealed I was told I couldn't open it till I left jail that paper was gone and so was my money.

Thought about doing the right thing once. Won't make that same mistake again, they've lost all my

respect and ruined any chance of me handling situations by being civil. Next time since obviously trying to do the right thing don't work I'll just put my fucking hands on the guy which I should have done in the first place and beat him to a living pulp. Least make it worth my fucking time.

Not all cops are bad, not all are good but I'm not going to put my faith in them after this incident. These local police just seem crooked as fuck. Without regard to why they even show up in the end it's about making that \$\$ for themselves and their lovely worn out ass-pussy government.

Gangs of sissy men out here with badges and a army behind them LOL least be a fucking man about it and do what you said you'd do if you want to threaten me. Cop didn't want it and put me under arrest which I complied with cuz he didn't want to get down and dirty like the thought once he got in my fucking face.

Jallu - June 18, 2021, 9:36 am

I have almost lost my license like 3 times, each time they didn't bother doing the paperwork when they were supposed to by the book or they thought i was not a bad guy.

Manners get you to places :)

Blockonome - June 18, 2021, 10:01 am

Been charged with many things, but nothing has ever been proven.

In several countries....

Edit: But most fun was when I had to do a naked 360 squat for Swedish police. :)

PokeBong - June 18, 2021, 10:12 am

Cops are bad in every experience I have had with them. I won't be posting my stories here because of opsec and shit but FTP.

TB12 - June 18, 2021, 10:30 am

Thankfully I have not experienced a bad cop in my life even when I once was facing legal issues. There are definitely more good cops than bad.

Nuworld - June 18, 2021, 11:22 am

Don't do the crime then you'll never have to worry about the cops ???

For real, or if you just listen to basic instructions during traffics stop that things will go smoothly.

Coming from someone on hf, with fake girl ewhoring packets, and illegal blackhat to whitehat individuals.. Not that you are in anyway blackhat but associate yourselves with the right crowds you eventually run into the law. Not a drug dealer lol.

Best and saddest truest post I have read. They are fucking crazy.. And you don't have to be involved with drugs to get there, a dumb lying woman or man will get you too.

Do you ever think opsec is dead? I mean who created TOR?...

When anybody can get a job making the same amount of money, unless they are just as, or dirtier than a criminal is, not having to exact your control issues on everyone.... Find a girl to to get kinky with you, its much more enjoyable than ruining innocent lives..

What makes you think there are more good than bad? The one I most recently met who was training to be police was at heart a real piece of trash, and judgemental of everyone, had control issues, and overall seemed unhappy with life being a prick.

That is so false though.. a lying woman/man will get you in prison, a lying cop will get you locked up. You dont have to do a crime to be in prison.

bk randy - June 18, 2021, 7:33 pm

I've been treated pretty damn shitty by police. I made them all so mad the Sargent literally was talking about ways to kill me, and was going to spray me down with water in the cell and tase me, one of the COs opened my cell and told me to be ready for when it happens but they never did it. Not going into anymore details but them mfs are dumb as hell and deserve all the killings they endure.

siddy357 - June 19, 2021, 3:10 am

prio always weigh in getting on the dirty cops looking for some action.

popZmoke - June 19, 2021, 10:13 am

There is just 1 cop, the community officer, that keeps fining me and my friends. He is also knows as sylvester stallone, I remember when we were 9/10 we gave him this nickname. He hated us back then, even hates us more now lmao. All off us have a clean record, aint nobdy gonna catch us.

We for real fucked with his head. I think he went mental.

neightworks. - June 19, 2021, 1:01 pm

My only experience in the back of a cop car we discussed pros and cons of various porn sites while driving down town.

I 100% believe all of you whom have had bad experiences are dickheads.

I have 3 cops in my contacts I will message before I go out driving where radars are. They're useful people.

Plenty of police departments around my area have been getting investigated by the FBI for corruption. They'd rather beat you up than arrest you here.

The Pact - June 22, 2021, 5:33 am

So sorry all that and happened to you and a bit shocked.

I have never been in trouble with the law but I am a woman and when I went to police for help a few years back about a man harassing me they laughed in my face and refused to help me. However when I laid a formal complaint the senior officer helped me with the perp and said he would be at least having a talk with the officers that laughed in my face and he also made the perp stop harassing me by giving him a formal warning. (The guy harassing me had a government job so that's all it took it didn't take a court case. The other officers were like "nah nah you'd never be able to win a court case about this what do you expect us to do?" And they just laughed at me.)

Then last year I rang the police 14 times about a relative hitting me and they wouldn't help. Again they said it would be too difficult to win a court case so they kept claiming there was nothing they could do about it. But on the 15 time I finally got a couple of good cops who arrested him.
