Thread: [Graphics Market Threads not listed in the Market Profile](#)

Fortunate - June 18, 2021, 10:00 am

Graphics Market threads aren't listed in the "Latest Market Threads" on your Market Profile.

Would be nice to see them there too since a lot of my contracts were generated that way.

I do not know if this is intentional. What do you think?

EDIT:

I don't see why Graphics Market should be excluded. I'm guessing it was an oversight

I'm checking the subforums now.

[Service Offerings Section](#) shows up in the market profile, but its subforums [VPN Hosting and Services Section](#) and the [Graphics Market Section](#) won't show up.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
