Thread: [Hackuman egg rarity?](#)

**bending** - June 20, 2021, 2:12 pm

I have received these Hackuman eggs, they seem to be for this hackuman game. Are these how rare?

**Exalted** - June 20, 2021, 2:13 pm

Get to know everything about the game by reading [flavoral](#) 's HQ thread: <https://hackforums.net/showthread.php?tid=6048790>

Thank you for the help!

The green ones are no that rare... now if you get a gold one lol.

**AiDenti** - June 20, 2021, 2:51 pm

rarity goes Green<Red<Blue<Gold

I've never gotten a blue, but I've gotten at least 15 eggs.

**SIM-353284** - June 20, 2021, 2:51 pm

I like your eggs, make sure there well stocked up with bytes.

**Blockonome** - June 20, 2021, 4:19 pm

If you get a blue or a golden one, I mean, they could potentially be rare, but those you have now, not so rare.

That does not give the odds of getting the eggs though.

This is basics math, how many people have gotten X egg in the last week/day compared to X amount of posts in that week/day. For example it looks like it there are 11,700 posts today and only one person has gotten a blue egg today, so I'm guessing it's a 1/11,000+ odds. Not sure if there are any other factors though, like how many characters your posts have.

OP, I'm sure I can find the script and check out the code to see how eggs are awarded and the rarity of them, if everyone is that curious. Or maybe someone has already posted the answer?

Well he didn't ask for the odds, just the rarity, which is definitely stated in the thread I linked.

(Feb 12, 2020 03:17 AM)flavoral Wrote: [\[CITE\]](#) Q: What's the difference between a , , , ?

A: The simple answer would be the rarity and the stats you will get. The more rare it is, the better stats you will get.

--> Most Common

--> Common

--> Less Common

--> Rare

?

Again, these aren't the odds. I think we all know which ones are more common and more rare.

I'm sure he meant he wanted to know the odds but maybe not.

Award page only shows who has the award on their profile, a user could've hatched their egg in Hackuman or put them in lottery.

This is true.

I can't find the script that grants the eggs, that is where the answer lies. I'll dig deeper later.
