What is Apple Music?

Apple Music is an online music streaming service that provides access to a complete collection of songs.

Is it possible to use Apple Music in offline mode and Does it work with mobile bandwidth?

Yes, you can download and listen to your favorite songs offline, which means you can download the content of your choice to your device, and play it when there is no network available. It works really well on 5G/4G/LTE networks. We have also had great results streaming over 3G, but if you're moving quickly, like on a train or in a car, we recommend using the offline mode to ensure uninterrupted playback.

How much does Apple Music subscription costs?

The cost of using the Apple Music is \$10 for each month.

How much does it cost to buy from you?

Half the original price, even less than half of MSRP [The manufacturer's suggested retail price.]

And Why you do it cheaper? Is it illegal?

No! Apple Music will be entirely legitimate. Because of the difference in the way of activation of your subscription, it costs a split and is cheaper than the original price.

Again, Is this legal?

This process is entirely legal.

Does this affect my old playlists on Apple Music?

Your Playlist will go with one reason: If you don't turn on iCloud Music Library Interestingly, all your favorite songs are recorded inside iCloud, and if you buy a new device, sign in to your Apple ID and access to all your favorite songs.

What country do you upgrade?

I only do the USA Apple Music upgrade; If your Apple ID region is not from the USA you need to change your region to USA and, Your Apple ID country should match to a USA address based.

Take a valid billing address from here

<https://www.google.com/maps/place/UnitedStates/>

How to change your Apple ID country or region

<https://support.apple.com/en-us/HT201389>

Is the use of Apple Music services limited to Apple devices?

Apple Music plays On All Your iDevices + Windows [Require iTunes] + Android Devices

How long does it take to activate subscription?

Depending on the hour you buy, it may take a few minutes to several hours but will be activated in less than 24 hours.

Do I need to provide my Apple ID Password?

No need to provide your Apple ID password And nothing will be shared with any member. I do upgrade on your own ID,
Without providing your password.

Can I access Apple Music from any country?

Yes, Apple does not have any restrictions on IP addresses for using its services.
No need to use VPN to communicate with Apple Music servers.

Can I import playlists from other streaming services to Apple Music?

Yes, you can import your playlists to Apple Music using the 3rd party services.
